The Elements of Journalism

What Newspeople Should Know and the Public Should Expect *Crown*

The authors outline the main principles of journalism, discussing the ethical and professional issues affecting the work of newspeople, the forces shaping the profession, and the future of journalism. 50,000 first printing.

The Elements of Journalism

What Newspeople Should Know and the Public Should Expect *Crown*

In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, The Elements of Journalism is the first book ever to spell out — both for those who create and those who consume the news — the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. The Elements of Journalism is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.

The Elements of Journalism

What Newspeople Should Know and the Public Should Expect *Three Rivers Press (CA)*

Updated to incorporate the latest information on current media trends, online media, blogging, and other recent events, a thought-provoking study outlines the main principles of journalism, discussing the ethical and professional issues affecting the work of newspeople, the forces shaping the profession, and the future of journalism. Original. 20,000 first printing.

The Elements of Journalism, Revised and Updated 4th Edition *Crown*

A timely new edition of the classic journalism text, now featuring updated material on the importance of reporting in the age of media mistrust and fake news—and how journalists can use technology to navigate its challenges More than two decades ago, the Committee of Concerned Journalists gathered some of America's most influential newspeople and asked them, “What is journalism for?” Through exhaustive research, surveys, interviews, and public forums, the committee identified the essential elements that define journalism and its role in our society. The result is one of the most important books on media ever written—winner of the Goldsmith Book Prize from Harvard, a Society of Professional Journalists Award, and the Bart Richards Award for Media Criticism from Penn State University. Updated with new material covering the ways journalists can leverage technology to their advantage, especially given the shifting revenue architecture of news—and with the future of news, facts, and democracy never more in question—this fourth edition of The Elements of Journalism is the authoritative guide for journalists, students, and anyone hoping to stay informed in contentious times.

Key features: Real-world applicability. This book includes thumbnail profiles of bloggers and their sites, which illuminate key skills you will need to become an effective blogger Interactivity. Each chapter features discussion points and exercises intended to get you to think about, reflect on, and apply the contents of each chapter Creativity. While this book dives into software and plug-ins for bloggers, its main goal is to cover how to write blogs on a myriad of topics: news, opinion pieces, travel, politics, art, and more. Visit the companion website: <http://www.theelementsofblogging.com/>

The Elements of Online Journalism *iUniverse*

Citizen journalism, blogging, community and user activity are today's buzzwords in the online news business. Publishers and editors see the potential windfall that the web can offer and are now investing heavily into this venture. With today's newspaper circulation, readership, and profit slipping, media outfits have no choice but to embrace a new reality: the Web is now the most powerful medium. This means a unique brand of journalism is needed to cater to the demands of the new generation of media consumers. This new brand is called multimedia journalism. How do we execute multimedia journalism online? What type of things do we have to do in order for our news site to succeed? What are the tools needed to be able to execute multimedia journalism, effectively? This book guides the reader as to how to create innovative multimedia reports and presentations. It explains the nature of today's media consumer and talks about ways to gain new users as well as sustain a high rate of return visits. The book also talks about other important factors of online journalism such as audience, design, promotion, ethics, job prospects, and future directions for online news.

Journalistic Writing

Building the Skills, Honing the Craft *Marion Street Press*

"An indispensable guide." Richard Lederer, author of *The Write Way*, *Sleeping Dogs Don't Lay*, and *Comma Sense* --

Principles of American Journalism

An Introduction *Routledge*

Designed to engage, inspire and challenge students while laying out the fundamentals of the craft, *Principles of American Journalism* introduces readers to the core values of journalism and its singular role in a democracy. From the First Amendment to Facebook, the new and revised edition of this popular textbook provides a comprehensive exploration of the guiding principles of journalism and what makes it unique: the profession's ethical and legal foundations; its historical and modern precepts; the economic landscape of journalism; the relationships among journalism and other social institutions; the key issues and challenges that contemporary journalists face. Case studies, exercises, and an interactive companion website encourage critical thinking about journalism and its role in society, making students more mindful practitioners of journalism and more informed media consumers.

Beyond News

The Future of Journalism *Columbia University Press*

For a century and a half, journalists made a good business out of selling the latest news or selling ads next to that news. Now that news pours out of the Internet and our mobile devices—fast, abundant, and mostly free—that era is ending. Our best journalists, Mitchell Stephens argues, instead must offer original, challenging perspectives—not just slightly more thorough accounts of widely reported events. His book proposes a new standard: “wisdom journalism,” an amalgam of the more rarified forms of reporting—exclusive, enterprising, investigative—and informed, insightful, interpretive, explanatory, even opinionated takes on current events. This book features an original, sometimes critical examination of contemporary journalism, both on- and offline. And it finds inspiration for a more ambitious and effective understanding of journalism in examples from twenty-first-century articles and blogs, as well as in a selection of outstanding twentieth-century journalism and Benjamin Franklin’s eighteenth-century writings. Most attempts to deal with journalism’s current crisis emphasize technology. This book emphasizes mindsets and the need to rethink what journalism has been and might become.

Warp Speed

America in the Age of Mixed Media *Twentieth Century Fund*

Did the coverage of the Clinton-Lewinsky scandal set a new low for American journalism? How has news gathering and reporting changed, and what effects has this had on the political and cultural landscape? In this insightful and thoughtful book, Bill Kovach and Tom Rosenstiel, two of America's leading press watchers, explore the new culture of news--what they call the new Mixed Media Culture--and show how it works.Warp Speed describes a world of news in which the speed of delivery is reducing the time for verification, sources are gaining more leverage over the news, and argument is overwhelming reporting. The press, forced to adhere to the demands of the bottom line and keep its audience, is straining more and more to find the Big Story to package as a form of entertainment, turning news stories into TV dramas; and turning history into a kind of Truman Show. As a result, the role of the press in a self-governing society is undermined.Grounded in extensive research, Warp Speed is informed by interviews and testimony from the principal journalists who covered this story and who covered the other great scandals of Washington politics. It offers detailed recommendations on how journalists can right their ship, such as using anonymous sources more responsibly and turning good journalism into good business.

The View from Somewhere

Undoing the Myth of Journalistic Objectivity *University of Chicago Press*

#MeToo. #BlackLivesMatter. #NeverAgain. #WontBeErased. Though both the right- and left-wing media claim “objectivity” in their reporting of these and other contentious issues, the American

public has become increasingly cynical about truth, fact, and reality. In *The View from Somewhere*, Lewis Raven Wallace dives deep into the history of “objectivity” in journalism and how its been used to gatekeep and silence marginalized writers as far back as Ida B. Wells. At its core, this is a book about fierce journalists who have pursued truth and transparency and sometimes been punished for it—not just by tyrannical governments but by journalistic institutions themselves. He highlights the stories of journalists who question “objectivity” with sensitivity and passion: Desmond Cole of the *Toronto Star*; New York Times reporter Linda Greenhouse; Pulitzer Prize-winner Rachel Kaadzi Ghansah; Peabody-winning podcaster John Biewen; Guardian correspondent Gary Younge; former Buzzfeed reporter Meredith Talusan; and many others. Wallace also shares his own experiences as a midwestern transgender journalist and activist who was fired from his job as a national reporter for public radio for speaking out against “objectivity” in coverage of Trump and white supremacy. With insightful steps through history, Wallace stresses that journalists have never been mere passive observers—the choices they make reflect worldviews tinted by race, class, gender, and geography. He upholds the centrality of facts and the necessary discipline of verification but argues against the long-held standard of “objective” media coverage that asks journalists to claim they are without bias. Using historical and contemporary examples—from lynching in the nineteenth century to transgender issues in the twenty-first—Wallace offers a definitive critique of “objectivity” as a catchall for accurate journalism. He calls for the dismissal of this damaging mythology in order to confront the realities of institutional power, racism, and other forms of oppression and exploitation in the news industry. Now more than ever, journalism that resists extractive, exploitive, and tokenistic practices toward marginalized people isn’t just important—it is essential. Combining Wallace’s intellectual and emotional journey with the wisdom of others’ experiences, *The View from Somewhere* is a compelling rallying cry against journalist neutrality and for the validity of news told from distinctly subjective voices.

The Elements of News Writing *Allyn & Bacon*

Kershner's *The Elements of News Writing* 3/e is a concise handbook that presents the essential rules of journalism, while offering in-depth analysis of the evolving industry. With comprehensive coverage from history to how-to, and discussions of new media, online journalism, blogging, and social networking, this text covers news writing from a 360 degree view. *The Elements of News Writing* covers the basics of news writing without the extra verbiage. The author pays extra attention to grammar and usage, with easy-to-follow basic tips on writing for all types of mass media, new and old.

The Journalism Behind Journalism

Going Beyond the Basics to Train Effective Journalists in a Shifting Landscape *Routledge*

Today’s journalists need to know both the skills of how to write, interview, and research, as well as skills that are often thought of as more intangible. This book provides a practical, how-to approach for developing, honing, and practicing the intangible skills critical to strong journalism. Individual chapters introduce journalism’s intangible concepts such as curiosity, empathy, implicit bias, community engagement, and tenacity, relating them to solid journalistic practice through real-world examples. Case studies and interviews with industry professionals help to further establish connections between concept and practice, and mid-chapter and end-of-chapter exercises give the reader a concrete pathway toward developing these skills. The book offers an important perspective for the modern media landscape, where any journalist seeking to make an impact must know how to contextualize events, hold power to account, and inform their community to contribute to a healthy democracy. This is an invaluable text for courses in journalism skills at both the undergraduate and graduate level and anyone training the next generation of journalists.

Freelancing for Journalists *Routledge*

Freelancing for Journalists offers an authoritative, practical and engaging guide for current and aspiring journalism freelances, exploring key aspects of the role including pitching a story, networking, branding and navigating freelance laws and rights. Featuring case studies from experienced freelance journalists working in the UK, US, Asia and Australia, the book addresses the evolving media landscape and provides valuable tips on how to become established as a successful journalist across a variety of platforms. The authors also explore practical aspects of the trade including tips for setting up a business, managing tax and legal issues, getting paid and earning additional income in related sectors. This book is an invaluable resource for both students and professionals who are interested in taking the next step into freelance journalism work.

From Mirrors to Movers

Five Elements of Positive Psychology in Constructive Journalism

Journalists believe that they mirror the world. However, this book argues that journalism move the world. But, in which direction are they moving it? This book introduces the innovation of journalism through behavioral sciences like positive psychology, moral psychology and prospective psychology. Steve Jobs of Apple said that it’s the intersection of technology and liberal arts that makes our hearts sing. This book proposes that today's journalism can be improved by drawing ideas, new formats and methodologies from the intersection of journalism and behavioural sciences like positive and prospective psychology. You'll discover: - How to create engaging journalistic coverage, when you stop seeing the world through a victimizing lens. - How to win the World Press Photo Photo by taking photographs that portrays hope and meaning amidst war and chaos. - How to create loyal media customers by engaging and interacting with them. - How to boost interest and engagement by understanding the deep seated psychology underpinning every journalistic story. In the book you will learn from the Dutch media sensation De Correspondent, South Africa's Times Media Group, Huffington Post, The Guardian, Upworthy, New York Times contributors, a World Press Photo winner and Scandinavian Broadcasters. This book for media professionals, but also for anyone interested in positive psychology and in societal improvement by media coverage.

American Carnival

Journalism Under Siege in an Age of New Media *Univ of California Press*

In this vividly written, compelling narrative, award-winning journalist Neil Henry confronts the crisis facing professional journalism in this era of rapid technological transformation. *American Carnival* combines elements of memoir with extensive media research to explore critical contemporary issues ranging from reporting on the Iraq War, to American race relations, to the exploitation of the image of journalism by advertisers and politicians. Drawing on significant currents in U.S. media and social history, Henry argues that, given the amount of fraud in many institutions in American life today, the decline of journalistic professionalism sparked by the economic challenge of New Media poses especially serious implications for democracy. As increasingly alarming stories surface about unethical practices, *American Carnival* makes a stirring case for journalism as a calling that is vital

to a free society, a profession that is more necessary than ever in a digital age marked by startling assaults on the cultural primacy of truth.

The Changing Faces of Journalism

Tabloidization, Technology and Truthiness *Routledge*

The collection is introduced with an essay by Barbie Zelizer and organized into three sections: how tabloidization affects the journalistic landscape; how technology changes what we think we know about journalism; and how ‘truthiness’ tweaks our understanding of the journalistic tradition. Short section introductions contextualise the essays and highlight the issues that they raise, creating a coherent study of journalism today.

First-Person Journalism

A Guide to Writing Personal Nonfiction with Real Impact *Routledge*

A first-of-its-kind guide for new media times, this book provides practical, step-by-step instructions for writing first-person features, essays, and digital content. Combining journalism techniques with self-exploration and personal storytelling, First-Person Journalism is designed to help writers to develop their personal voice and establish a narrative stance. The book introduces nine elements of first-person journalism—passion, self-reporting, stance, observation, attribution, counterpoints, time travel, the mix, and impact. Two introductory chapters define first-person journalism and its value in building trust with a public now skeptical of traditional news media. The nine practice chapters that follow each focus on one first-person element, presenting a sequence of "voice lessons" with a culminating writing assignment, such as a personal trend story or an open letter. Examples are drawn from diverse nonfiction writers and journalists, including Ta-Nehisi Coates, Joan Didion, Helen Garner, Alex Tizon, and James Baldwin. Together, the book provides a fresh look at the craft of nonfiction, offering much-needed advice on writing with style, authority, and a unique point of view. Written with a knowledge of the rapidly changing digital media environment, First-Person Journalism is a key text for journalism and media students interested in personal nonfiction, as well as for early-career nonfiction writers looking to develop this narrative form.

The Elements of Editing

A Modern Guide for Editors and Journalists *Scribner Paper Fiction*

Information: 1st Macmillan paperbacks ed. Includes bibliographies and index.

Worlds of Journalism

Journalistic Cultures Around the Globe *Columbia University Press*

How do journalists around the world view their roles and responsibilities in society? Based on a landmark study that has collected data from more than 27,500 journalists in 67 countries, Worlds of Journalism offers a groundbreaking analysis of the different ways journalists perceive their duties, their relationship to society and government, and the nature and meaning of their work. Challenging assumptions of a universal definition or concept of journalism, the book maps a world populated by a rich diversity of journalistic cultures. Organized around a series of key questions on topics such as editorial autonomy, journalistic ethics, trust in social institutions, and changes in the profession, it details how the practice of journalism differs across the world in a range of political, social, and economic contexts. The book covers how journalism as an institution is created and re-created by journalists and how they experience their profession in very different ways, even as they retain a commitment to some basic, widely shared professional norms and practices. It concludes with a global classification of journalistic cultures that reflects the breadth of worldviews and orientations found in disparate countries and regions. Worlds of Journalism offers an ambitious, comparative global understanding of the state of journalism in a time when it is confronting a series of economic and political threats.

The Sociology of Journalism *Bloomsbury Academic*

Journalism is a privileged cultural form. It is the main source of our knowledge about the world and our place in it, and the point at which the individual and the social worlds meet. Referring to cases from both the US and UK, including the White House sex scandals and the death of Diana, this book examines the various factors involved in the making of contemporary journalism, including economic and political pressures, changes in the technology of news gathering and production, and the growing role of sources and "source strategies." The text analyzes how such factors come to exert influence on the form, content, and style of journalism, and reviews current approaches to the sociological impact of journalism on individuals, groups, and organizations.

James Carey

A Critical Reader *U of Minnesota Press*

James Carey - scholar, media critic, and teacher of journalists - almost single-handedly established the importance of defining a cultural perspective when analyzing communications. Interspersing Carey's major essays with articles exploring his central themes and their importance, this collection provides a critical introduction to the work of this significant figure. In James Carey: A Critical Reader, sever scholars who have been influenced by him consider his work and how it has affected the development of media studies. Carey has examined the roles the media and the academy have played in creating and maintaining a public sphere, as well as the ways technology helps or hinders that project. Carey's themes range from the strains on democracy and drawbacks of technology to the critique of journalism and the politics of academe.

The Handbook of Journalism Studies *Routledge*

This Handbook charts the growing area of journalism studies, exploring the current state of theory and setting an agenda for future research in an international context. The volume is structured around theoretical and empirical approaches, and covers scholarship on news production and organizations; news content; journalism and society; and journalism in a global context. Emphasizing comparative and global perspectives, each chapter explores: Key elements, thinkers, and texts Historical context Current state of the art Methodological issues Merits and advantages of the approach/area of studies Limitations and critical issues of the approach/area of studies Directions for future research Offering broad international coverage from top-tier contributors, this volume ranks among the first publications to serve as a comprehensive resource addressing theory and scholarship in journalism studies. As such, the Handbook of Journalism Studies is a must-have resource for scholars and graduate students working in journalism, media studies, and communication around the globe.

Journalism Standards of Work Today

Using History to Create a New Code of Journalism Ethics

This research examines journalism ethics to answer the questions of whether we still need journalism ethics in the twenty-first century, if it is possible to exercise journalistic standards of work and, if so, on what values should these ethics be based in a world much different from that which existed when the first journalism codes of ethics were formulated in the nineteenth and early twentieth centuries. To distil the motivations and essence of the early journalistic standards of work, the book discusses the function of media in a democracy and the formation of mass media during the first industrial revolution, as well as its consequential change in journalists' locus of control and how journalists self-identified. The sudden creation of mass media pushed some journalists to create ethical principles which would guide the newly empowered press, an effort which culminated in the creation of the first national code of journalistic ethics in 1923. The book closely examines the elements of the 1923 "Canons of Journalism", finding them to contain timeless values, despite their original application to now dated technology. It highlights the basic elements and applies them to media today, in a way that interfaces with new technology without abandoning the essential components of equipping citizens for representative governance.

Chasing History

A Kid in the Newsroom *Henry Holt and Company*

In this triumphant memoir, Carl Bernstein, the Pulitzer Prize-winning coauthor of All the President's Men and pioneer of investigative journalism, recalls his beginnings as an audacious teenage newspaper reporter in the nation's capital—a winning tale of scrapes, gumshoeing, and American bedlam. In 1960, Bernstein was just a sixteen-year-old at considerable risk of failing to graduate high school. Inquisitive, self-taught—and, yes, truant—Bernstein landed a job as a copyboy at the Evening Star, the afternoon paper in Washington. By nineteen, he was a reporter there. In Chasing History: A Kid in the Newsroom, Bernstein recalls the origins of his storied journalistic career as he chronicles the Kennedy era, the swelling civil rights movement, and a slew of grisly crimes. He spins a buoyant, frenetic account of educating himself in what Bob Woodward describes as “the genius of perpetual engagement.” Funny and exhilarating, poignant and frank, Chasing History is an extraordinary memoir of life on the cusp of adulthood for a determined young man with a dogged commitment to the truth.

The Power and the Story

The Global Battle for News and Information *Atlantic Books*

In this sweeping global survey, one of Britain's most distinguished journalists and media commentators analyses for the first time the state of journalism worldwide as it enters the post-truth age. In this sweeping global survey, one of Britain's most distinguished journalists and media commentators analyses for the first time the state of journalism worldwide as it enters the post-truth age. From the decline of the newspaper in the West and the simultaneous threats posed by fake news and President Trump, to the part that Facebook and Twitter played in the Arab revolts and the radical openness stimulated by WikiLeaks, and from the vast political power of Rupert Murdoch's News International and the merger of television and politics in Italy, to the booming, raucous and sometimes corrupt Indian media and the growing self-confidence of African journalism, John Lloyd examines the technological shifts, the political changes and the market transformations through which journalism is currently passing. The Power and the Story offers a fascinating insight into a trade that has claimed the right to hold power to account and the duty to make the significant interesting - while making both the first draft of history, and a profit. 'Lloyd has a vivid reporting style and his many succinct interviews with victims or justifiers of Putin, or Egyptian of Indian style journalism, make his book a page-turner for those interested in question of who decides and writers the news we are permitted to read.... His masterly book is a lament not an obituary.' - Santiago Gamboa, Tribune

Last Call at the Hotel Imperial

The Reporters Who Took On a World at War *Random House*

A prize-winning historian's revelatory account of a close-knit band of wildly famous American reporters who, in the run-up to World War II, took on dictators and rewrote the rules of modern journalism “As intimate and gripping as a novel, this brilliant book vividly conveys what it felt like to live through the shocking crises of the thirties and forties.”—Larissa MacFarquhar, author of Strangers Drowning They were an astonishing group: glamorous, gutsy, and irreverent to the bone. As cub reporters in the 1920s, they roamed across a war-ravaged world, sometimes perched atop mules on wooden saddles, sometimes gliding through countries in the splendor of a first-class sleeper car. While empires collapsed and fledgling democracies faltered, they chased deposed empresses, international financiers, and Balkan gun-runners, and then knocked back doubles late into the night. Last Call at the Hotel Imperial is the extraordinary story of John Gunther, H. R. Knickerbocker, Vincent Sheean, and Dorothy Thompson. In those tumultuous years, they landed exclusive interviews with Hitler and Mussolini, Nehru and Gandhi, and helped shape what Americans knew about the world. Alongside these backstage glimpses into the halls of power, they left another equally incredible set of records. Living in the heady afterglow of Freud, they subjected themselves to frank, critical scrutiny and argued about love, war, sex, death, and everything in between. Plunged into successive global crises, Gunther, Knickerbocker, Sheean, and Thompson could no longer separate themselves from the turmoil that surrounded them. To tell that story, they broke long-standing taboos. From their circle came not just the first modern account of illness in Gunther's Death Be Not Proud—a memoir about his son's death from cancer—but the first no-holds-barred chronicle of a marriage: Sheean's Dorothy and Red, about Thompson's fractious relationship with Sinclair Lewis. Told with the immediacy of a conversation overheard, this revelatory book captures how the global upheavals of the twentieth century felt up close.

The Data Journalism Handbook

How Journalists Can Use Data to Improve the News "O'Reilly Media, Inc."

When you combine the sheer scale and range of digital information now available with a journalist's "nose for news" and her ability to tell a compelling story, a new world of possibility opens up. With The Data Journalism Handbook, you'll explore the potential, limits, and applied uses of this new and fascinating field. This valuable handbook has attracted scores of contributors since the European Journalism Centre and the Open Knowledge Foundation launched the project at MozFest 2011. Through a collection of tips and techniques from leading journalists, professors, software developers, and data analysts, you'll learn how data can be either the source of data journalism or a tool with which the story is told—or both. Examine the use of data journalism at the BBC, the Chicago Tribune,

the Guardian, and other news organizations Explore in-depth case studies on elections, riots, school performance, and corruption Learn how to find data from the Web, through freedom of information laws, and by "crowd sourcing" Extract information from raw data with tips for working with numbers and statistics and using data visualization Deliver data through infographics, news apps, open data platforms, and download links

Journalism, fake news & disinformation

handbook for journalism education and training *UNESCO Publishing*

The Routledge Companion to Journalism Ethics *Routledge*

This volume provides a comprehensive discussion of enduring and emerging challenges to ethical journalism worldwide. The collection highlights journalism practice that makes a positive contribution to people's lives, investigates the link between institutional power and ethical practices in journalism, and explores the relationship between ethical standards and journalistic practice. Chapters in the volume represent three key commitments: (1) ensuring practice informed by theory, (2) providing professional guidance to journalists, and (3) offering an expanded worldview that examines journalism ethics beyond traditional boundaries and borders. With input from over 60 expert contributors, it offers a global perspective on journalism ethics and embraces ideas from well-known and emerging journalism scholars and practitioners from around the world. The Routledge Companion to Journalism Ethics serves as a one-stop shop for journalism ethics scholars and students as well as industry practitioners and experts.

Journalism and Society *SAGE*

"Every serious student of journalism should read this book... Denis McQuail has succeeded in producing a work of scholarship that shows what journalists do and what they should do." - Stephen Coleman, University of Leeds "For a half century we have spoken earnestly of journalism's responsibility to society instead of to business and government. Now this concept is given sophistication unmatched, by the best scholar of media theory of his generation." - Clifford Christians, University of Illinois "The grand old man of communication theory presents an overarching social theory of journalism that goes beyond the usual Anglo-American focus." - Jo Bardoel, University of Amsterdam (ASCoR) and Nijmegen "This book deals with the eternal question of how journalism is linked to society... I cannot think of a better staple food for students of journalism at all levels." - Kaarle Nordenstreng, University of Tampere This is a major new statement on the role of journalism in democracy from one of media and communication's leading thinkers. Denis McQuail leads the reader through a systematic exploration of how and why journalism and society have become so inextricably entwined and - as importantly - what this relationship should be like. It is a strong re-statement of the fundamental values that journalism aspires to. Written for students, this book: Makes the theory accessible and relevant Teaches the importance of journalism to power and politics Explores the status and future of journalism as a profession Outlines the impact and consequences of the digital Reveals journalism as it is, but also as it should be Takes each chapter further with guided reading list and free online journal articles. This textbook is the perfect answer to the how and why of journalism. It is crucial reading for any student of media studies, communication studies and journalism.

How to Watch TV News

Revised Edition *Penguin*

A scathing and prescient look at television news' now updated for the new tech-savvy generation Television news : genuine information or entertainment fodder? Fifteen years ago, Neil Postman, a pioneer in media education and author of the bestselling *Amusing Ourselves to Death*, and Steve Powers, an award-winning broadcast journalist, concluded that anyone who relies exclusively on their television for accurate world news is making a big mistake. A cash cow laden with money from advertisers, so-called news shows glut viewers with celebrity coverage at the cost of things they really should know. Today, this message is still appallingly true but the problems have multiplied, along with the power of the Internet and the abundance of cable channels. A must-read for anyone concerned with the way media is manipulating our worldview, this newly revised edition addresses the evolving technology and devolving quality of America's television news programming.

The Days to Come

A Novel *HarperCollins*

A masterful political thriller thrusts veteran Washington fixers Peter Rena and Randi Brooks into a

dark world of cyberattacks, a new era of foreign espionage, and a risky, classified plan to save the world from environmental disaster Billionaire entrepreneur David Traynor has big dreams for fixing a broken government in his first term as president of the United States. In the months before his inauguration, he's developed daring and, in some cases, secret strategies to solve the climate crisis, force Congress to work again, and rebuild America's economy—and that's just the beginning. Everyone in the capital is scrambling to adapt to the new disruptor in chief's bold agenda, though many, both at home and abroad, also want to see Traynor and his steely vice president, Wendy Upton, fail. Unsure of whom he can trust, Traynor intends to turn to an unusual group of people to advise him, including the savvy and sometimes ruthless DC fixers Peter Rena and Randi Brooks. Though he is at the height of his career, Rena finds his world in chaos. His personal life is a mess; he wonders if his work—saving powerful people from their mistakes—has become too cynical. When malicious, untraceable cyberattacks related to his past start seeping from the dark corners of the internet, Rena's doubts overwhelm him. Then an unpredictable tragedy throws the country into crisis, and he must come out of his stupor. If Rena wants to help the new president salvage American politics, he will first have to reckon with his own demons and come to grips with a world far different from the one he once believed in. With the government and the country polarized and on the cusp of enormous change, Tom Rosenstiel's *The Days to Come* is a clever, gripping thriller and a cogent meditation on how to heal a divided country.

Journalism

Principles and Practice *SAGE Publications*

'Journalism' offers a wide-ranging introduction to journalism, which combines the experience and advice of practising journalists with insights gained by the academic study of journalism.

The Elements of Story

Field Notes on Nonfiction Writing *Harper Collins*

"A splendid book for journalists (new or old), fiction writers, essayists, and critics. But it could also be of great use to the intelligent common reader, the man or woman who wonders why it's impossible to finish reading certain stories and why others carry the reader in a vivid rush to the end." —Pete Hamill, author of *A Drinking Life* In the spirit of Strunk and White's classic *The Elements of Style*, comes *The Elements of Story*, by Francis Flaherty, longtime story editor at *The New York Times*. A brilliant blend of memoir and how-to, *The Elements of Story* offers more than 50 principles that emphasize storytelling aspects rather than simply the mechanics of writing—a relentlessly entertaining, totally accessible writing guide for the novice and the professional alike.

Circe *Little, Brown*

"A bold and subversive retelling of the goddess's story," this #1 *New York Times* bestseller is "both epic and intimate in its scope, recasting the most infamous female figure from the *Odyssey* as a hero in her own right" (Alexandra Alter, *The New York Times*). In the house of Helios, god of the sun and mightiest of the Titans, a daughter is born. But Circe is a strange child -- not powerful, like her father, nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power -- the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. Threatened, Zeus banishes her to a deserted island, where she hones her occult craft, tames wild beasts and crosses paths with many of the most famous figures in all of mythology, including the Minotaur, Daedalus and his doomed son Icarus, the murderous Medea, and, of course, wily Odysseus. But there is danger, too, for a woman who stands alone, and Circe unwittingly draws the wrath of both men and gods, ultimately finding herself pitted against one of the most terrifying and vengeful of the Olympians. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from, or the mortals she has come to love. With unforgettably vivid characters, mesmerizing language, and page-turning suspense, Circe is a triumph of storytelling, an intoxicating epic of family rivalry, palace intrigue, love and loss, as well as a celebration of indomitable female strength in a man's world. #1 *New York Times* Bestseller -- named one of the Best Books of the Year by NPR, the Washington Post, People, Time, Amazon, Entertainment Weekly, Bustle, Newsweek, the A.V. Club, Christian Science Monitor, Refinery 29, Buzzfeed, Paste, Audible, Kirkus, Publishers Weekly, Thrillist, NYPL, Self, Real Simple, Goodreads, Boston Globe, Electric Literature, BookPage, the Guardian, Book Riot, Seattle Times, and Business Insider.

Novaja žurnalistika i antologija novoj žurnalistiki *Pan Macmillan*

With an anthology edited by Tom Wolfe and E. W. Johnson
