Taking a moment to observe and think about these ambient light qualities is the first step in determining how you can best make use of additional lighting from off camera flash. You might find it helpful to think of your location portrait setting as a clock or compass with your subject in the middle, and the camera and light sources arranged around the subject in a circular manner, through a ...

Working with Off Camera Flash and TTL

Off-camera flash, as the name suggests is the technique of taking your external Speedlight/flash unit and mounting it off-camera. This results in the light falling on the subject at an angle, rather than straight on. The second thing to understand is that the off-camera flash needs to fire in sync with the camera shutter release.

How To Use Off-Camera Flash: An Essential Guide to Off ...

"Off Camera Flash" is one of three books that I use as reference material. Neil Van Niekerk describes the technique of combining ambient lighting with flash and his photos depict the result. I do a lot of studio work but was somewhat reluctant to move my strobes (now I use speedlights) outdoors.
