Harvard Design Magazine: A Critic Writes by Reyner Banham

In the 1969 book The Architecture of the Well-Tempered Environment, architectural critic and historian Reyner Banham drew from a decade of his own writings about “environments fit for human activities”, heralding the possibilities of a technologically-driven, man-made climate that would eliminate the need for “massive” buildings by rendering their physical delimitation of habitable space obsolete. In theorising this “other” architecture, however, Banham appeared to be challenging ...

Reyner Banham: In Search of an Imageable, Invisible ...

About the Book. Reyner Banham examined the built environment of Los Angeles in a way no architectural historian before him had done, looking with fresh eyes at its manifestations of popular taste and industrial ingenuity, as well as its more traditional modes of residential and commercial building. His construct of "four ecologies" examined the ways Angelenos relate to the beach, the freeways, the flatlands, and the foothills.
