Guides & Manuals - Ownership - Land Rover UK

So I have had the new Land Rover for a few weeks now, and the first thing I noticed from driving around was the play in the steering box. The steering wheel moved around 2-3inchs before it started to turn the wheels. The Land Rover steering box has some adjust built into it, so the play can be adjusted to some degree.

So my P38 went clean through its MOT the other day, result! But the tester did say my steering box

is at the very limit of what he can allow . Now, I have an unknown used steering box to hand but back when I was an apprentice we used to rebuild these with an overhaul kit. This is where my issues lay.
