Taxes And Business Strategy Solution

Effective tax planning will follow the
 decision rule of maximizing after-tax
 returns, considering all the tax
 implications involved in various

revenue streams and various cost heads.
 Both implicit and explicit taxes for all the
 parties involved in the transaction are
 considered. This will involve analyzing
 various options including location
 of value adding activities, the time when
 revenues or costs are recognized, the
 investments involved, including the
 sources of finance such as equity or debt
