What Is Development Economics? - WorldAtlas

Development economics is a branch of economics which deals with economic aspects of the development process in low income countries. Its focus is not only on methods of promoting economic development, economic growth and structural change but also on improving the potential for the mass of the population, for example, through health, education and workplace conditions, whether through public ...

Development economics - Wikipedia

Last month, I wrote about the long-standing debate between the Monetarists and the Austrians, which surfaces at practically every Mont Pelerin Society meeting. Both schools are ardent defenders of the free market, yet they fight incessantly over methodology and economic modeling.
