There is now a context for teaching humanities in undergraduate medical education via special study modules (SSMs). This paper discusses the instrumental and non-instrumental role

of the humanities in the education of doctors. Three courses are then described and compared.

The humanities in medical education: context, outcomes and ...

Introduction. The medical humanities often run with a mollifying manifesto. The good doctor, we are told, must also be an educated doctor. The medical humanities scholar Jane Macnaughton argues that we require doctors with “imaginative insight into the problems and contexts of patients’ lives”.¹ With these goals in mind, it is argued that the humanities afford medical students and ...

Medical Humanities and Medical Education: How the medical ...

Medical humanities is an interdisciplinary field of medicine which includes the

humanities, social science and the arts and their application to medical education and practice. The core strengths of the medical humanities are the imaginative nonconformist qualities and practices. Medical humanities is mainly concerned with training medical practitioners. This contrasts with health humanities which more broadly links health and social care disciplines with the arts and humanities.
