Can You Go?

Assessments and Program Design for the Active Athlete and Everybody Else

Training people in sport as a coach or in fitness as a personal trainer is certainly rewarding work. But, there's a problem: What do we do next? There are countless books on diet and exercise, hundreds of machines, devices and gimmicks to train people, and new gadgets and gizmos are popping up daily. "Can You Go?" answers this question: What do we NEED to do next? Appropriate assessment leads to the appropriate answer. If it there's a mobility issue, focus on mobility work.

The same is true for body composition and strength; focus on what we need to do, not what we want to do. For the performance athlete, sometimes assessment can be the short, brutal and harsh question, "Can you go?" Lessons from this frankness can be learned by both the coach and trainer. The ill and the elite share the same basic body, and the job is to enhance performance and quality of life in every training situation.

Anyone that's operational knows it's a constant juggling act trying to become (and stay) superhuman. Tactical Barbell is a strength training program designed specifically for operational athletes using correct principles and best practices. The objective being to increase maximal-strength and strength-endurance, while taking into account the need to simultaneously train other fitness domains. The Naked Warrior

Master the Secrets of the Super-strong, Using Bodyweight Exercises Only *Dragon Door Publication*

Have you noticed-the greater a man's skill, the more he achieves with less? And the skill of strength is no exception. From the ancient days of Greek wrestling, to the jealously guarded secrets of Chinese Kung Fu masters, to the hard men of modern spec ops, warriors and allied strongmen have

developed an amazing array of skills for generating inhuman strength. But these skills have been scattered far and wide, held closely secret, or communicated in a piecemeal fashion that has left most of us frustrated and far from reaching our true strength potential. Now, for the first time, Russian strength expert and former Spetsnaz instructor Pavel has gathered many of these devastating techniques into one highly teachable skill set. In *The Naked Warrior* Pavel reveals exactly what it takes to be super-strong in minimum time-when your body is your only tool.
