Rich Dad's Guide to Becoming Rich...Without Cutting Up Your Credit Cards *Grand Central Publishing* Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

Rich Dad, Poor Dad *Lulu Press, Inc*
Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. “Why should I put time into studying subjects I will never use in real life?” he protested. Without thinking, I responded, “Because if you don't get good grades, you won't get into college.” “Regardless of whether I

go to college," he replied, "I'm going to be rich."

Many people have million-dollar ideas. They’re confident that their new product or service or innovation will make them rich and that all their dreams will come true. The problem is: Most people don’t know how to turn their million-dollar idea into millions of dollars. According to many social scientists, the most important thing in life is a person’s social and professional network. In other words, the people around us--our associates, our team, our friends. The

people we surround ourselves with--and the people we go to for advice and guidance--can mean the difference between success and failure. And as he taught in Rich Dad Poor Dad, if the people around you have a poor person’s mindset, it’s likely that you’ll be, or stay, poor. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday. In More Important Than Money, Robert teams up with his most trusted Advisors who contribute not only chapters on the strengths and talents they bring to the team, but offer candid and insightful individual Profiles and excerpts from each of the 14 Rich Dad Advisor Series books. Readers will meet all of Robert’s Rich Dad Advisors and learn why they are among his most valuable assets.

Summary of Cash Flow Quadrant

BookSummaryGr

Summary of Cash Flow Quadrant You can never have true freedom without financial freedom. Freedom may be free, but it has a price. Preface: What is Your Life's Goal? Finding your path in life is your goal in life. Your path is not your profession, how much money you make, your title, or your successes and failures. Finding your path means finding out what you were put here on this earth to do. What is your life's purpose? Why were you given this gift called life? And what is the gift you give back to life? Most people are programmed early in life to "Go to school and get a job." School is about finding a job in the E or S quadrant. It is not about finding your life's path. Trust your intuition, heart and have guts. Education is a process. To develop into a whole human being, we need mental, physical, emotional, and spiritual education. Traditional schools were primarily about developing students mentally. That is why so many students who do well in school, do not do well in real life, especially in the world of money. School programs students to be an employee in the E or S quadrant. Traditional education is not the place for a person who wants to be an entrepreneur in the B and I quadrants. Become an entrepreneur in education. It seems that our paths in life are not found in our minds. Our path in life is to find out what is in our hearts. The shortcoming of traditional education. Millions of people leave school, only to be trapped in jobs they do not like. They know something is missing in life. Many people are also trapped financially, earning just enough to survive, wanting to earn more but not knowing what to do. Without awareness of the other quadrants, many people go back to school and look for new professions or pay raises in the E or S quadrant, unaware of the world of the B and I quadrants. Most addictions are attempts to find happiness in people’s souls. Many “A” students get stuck in “analysis paralysis,” studying every little detail, but failing to do anything. This “analysis paralysis” is caused by our educational system punishing students for making mistakes. If you think about it, “A” students are “A” students simply because they made the fewest mistakes. The problem with that emotional psychosis is that, in the real world, people who take action are the ones who make the most mistakes and learn from them to win in the game of life. The reason so many people fail to achieve success is because they fail to fail enough times. One of the reasons so many people cling to job security is because they lack emotional education. They let fear stop them. Here is a Preview of What You Will Get: - A Full Book Summary - An Analysis - Fun quizzes - Quiz Answers - Etc Get a copy of this summary and learn about the book.

The Power of Zero, Revised and Updated *Currency*

OVER 250,000 COPIES IN PRINT, WITH A NEW CHAPTER ON THE 2018 TAX CUTS. There's a massive freight train bearing down on the average American investor, and it's coming in the form of higher taxes. The United States Government has made trillions of dollars in unfunded promises for programs like Social Security and Medicare—and the only way to deliver on these promises is to raise taxes. Some experts have even suggested that tax rates will need to double, just to keep our country solvent. Unfortunately, if you're like most Americans, you've saved the majority of your retirement assets in tax-deferred vehicles like 401(k)s and IRAs. If tax rates go up, how much of your hard-earned money will you really get to keep? In The Power of Zero, McKnight provides a concise, step-by-step roadmap on how to get to the 0% tax bracket by the time you retire, effectively eliminating tax rate risk from your retirement picture. Now, in this expanded edition, McKnight has updated the book with a new chapter on the 2017 Tax Cuts and Jobs Act, showing readers how to navigate the new tax law in its first year of being in effect, and how they can extend the life of their retirement savings by taking advantage of it now. The day of reckoning is fast approaching.
