Classroom assessment is a continuous process. Some tests, called external tests, are created by people who do not know the students who will take the test. In contrast, assessments are planned and conducted by teachers with their own students. Tests are part of the assessment process, but they are only one of many assessment tools.

TextBook Classroom Assessment What Teachers Need To Know ...

Classroom assessment is one of the most hotly debated topics in educational circles. In this chapter, a context is provided for some of the related questions by considering different instances when classroom teachers use assessment data for making educational decisions. This is followed by a discussion of teacher competence.

J.J. Cumming, in International Encyclopedia of Education (Third Edition), 2010. Classroom assessment in Australia is used not only to assess student achievement and improve learning, but also for certification and accountability. Classroom assessment is defined here as assessments developed or implemented by teachers in the context of their own classroom instruction.
