Encyclopedia of Language and Linguistics - 2nd Edition

Language, as described above, is species-specific to human beings. Other members of the animal kingdom have the ability to communicate, through vocal noises or by other means, but the most important single feature characterizing human language (that is, every individual language), against every known mode of animal communication, is its infinite productivity and creativity.

Language - Encyclopedia Britannica | Britannica

Encyclopedia of Arabic Language and Linguistics — Brill

A guide to writing systems and languages, with useful phrases, tips on learning languages, multilingual texts, and much more.

Omniplot - the encyclopedia of writing systems and languages

Language is the normal way humans communicate. Only humans use language, though other animals communicate through other means. Human language has syntax, a set of rules for connecting words together to make statements and questions. Language can also be changed, by adding new words, for example, to describe new things. Other animals may inherit a set of calls which have pre-set functions. Language may be done by speech or by writing or by moving the hands to make signs. It follows that language
