The World Of The Policy

This book examines policy analysis by examining the process in terms of the metaphor of the policy analysts' world. Policy analysis is a rational process of decision making; however, it confronts a messy political reality. There are conflicting values, too, as a part of the context of the politics of policy analysis.

World polity theory was developed mainly as an analytical frame for interpreting global relations, structures, and practices. It was developed partly in response to the application of world systems theory. The theory views the world system as a social system with a cultural framework called world polity, which encompasses and influences the actors, such as nations, international organizations, and individuals under it. In other words, according to John Boli and George M. Thomas, "the world polit
