The Government High Line Canal was started in 1902 and completed in 1917, after delays caused by private landowners whose land needed to be condemned to make the project possible. The Canal is 55 miles long and carries 1,675 second feet (s/f) of water. The project consists of a single, 14 foot high, concrete diversion weir on the Colorado River ...

Grand Junction: Government Highline Canal - Tripadvisor

Government Highline Canal. As early as 1908, the Bureau of Reclamation and the District were engaged in discussions involving the carriage of the District's water in the yet to be constructed government system. It was critical to the success of the government system that the power water used in the hydraulic pumps to lift irrigation water to the Mesa County and Palisade Irrigation Districts be abandoned or somehow conveyed to the United States for use in the government system.
