The Theory of Economic Development | SpringerLink

The emergence of development theory. The use of the term development to refer to national economic growth emerged in the United States beginning in the 1940s and in association with a key American foreign policy concern: how to shape the future of the newly independent states in ways that would ensure that they would not be drawn into the communist Soviet bloc. Motivated by this concern, the United States enlisted its social scientists to study and devise ways of promoting capitalist ...
