LB7 6.6 Duramax Common Issues, Problems, and Fixes

We know today LB7 injector failure is a common problem, and because the operating tolerances inside the fuel system are so tight, proper lubrication from the diesel fuel is critical. If there is even the slightest bit of air in the fuel or worse yet contaminants like dirt or rust, you can bet the internal parts of the injectors will wear prematurely and you'll be doing an LB7 injector change.

Common Duramax Diesel Problems, Troubleshooting, and ...

A light white haze is a common symptom of bad injectors. If it's a white cloud, and smells like burnt oil then it very well could be oil burning out the exhaust. Another symptom of bad injectors is filling the crankcase with diesel. That is why I asked about the overfilling part.

Duramax LB7 problems | Chevy and GMC Duramax Diesel Forum

They ALL have injector issues, but the LB7 has the most. LLY's have injector problems as well, just not as severe and they are not under the covers. And MANY LBZ/LMM's are also having injector issues(just do a search on the P0087 code and ask what most end up doing to fix it). You can expect on average 75-100K miles out of LB7 injectors.

LB7 problems...how common? | Diesel Place

No apparent problem. At this point, I consulted the duramax specialist at the local GM dealership. He is reputed to be very expert at his craft, and was very generous with his time and advice. His opinion was that harness issues with lb7's were fairly rare.

duramax lb7, common problem? | Diesel Place

One thing the '01-'04 LB7 Duramax is notorious for is injector failure. The two primary failure points of the factory injectors are internal cracking of the injector body itself and corrosion-induced failure of the internal ball seat.

I'd look at your fuel filter housing, they are a common issue. Also I would change all the rubber lines on the motor, they get pretty dry rotted and cracked..

LB7: - Fuel problems | DuramaxDiesels.com

One of the most common problems with this design that 6.6l Duramax fuel pump repair experts point out is that, over time, a crack tends to develop in the fuel filter. Another common issue occurs when air is drawn in due to bad housing. Once air is introduced to the system, getting the fuel system operational can pose a challenge.

Duramax 6.6l Turbo Diesel Repair Experts Point out Common ...

Fuel Starvation and Injector Problems
These two problems are thought by many to be related, though that hasn't entirely been confirmed. The Duramax has long been susceptible to fuel starvation failures because the engine

doesn't use a lift pump to feed the primary pressure pump.
