Change Management Project Plan For

Jennifer started by saying how important
a change management plan is for a
successful project. That's because a
change management plan defines
activities and roles for managing and

controlling change when executing a
project. There are five phases in a
project: initiate, plan, execute, monitor
and control, and close. During the life
cycle of a project, change can occur
during the execution, monitoring and
controlling phases.

How to Make a Change Management Plan

The Change Management Plan was
created for the Inventory Services (IS)
Project in order to set expectations on
how the approach to changes will be
managed, what defines a change, the
purpose and role of the change control
board, and the overall change
management process.
