Schweller complements this approach with a theory of foreign policy that can explain state strategies and variations in national responses to similar systemic pressures. Thus, Unanswered Threats examines how the internal structures of states affect policy responses. Schweller drops the neorealist assumption that all states have the same extractive capacity and instead explores the question of why some states are better than others at recognizing external threats and at mobilizing resources ...

Unanswered Threats: Political Constraints on the Balance ...

Randall Schweller, professor of political science at Ohio State University, claims in Unanswered Threats, his valuable new book, that a combination of domestic political constraints serves to blind the underbalancing power to the threat posed by the disruptive state. Schweller’s book is in many ways a neoclassical realist critique of structural realism, and he does not often attempt to disguise his impatience with the reductionist tendencies of the latter.
