ME-Motronic engine management - MOTOR-TALK

Motronic is the trade name given to a range of digital engine-management systems developed by Bosch. This superseded the more primitive L-Jetronic system in 1987. All Motronic ECUs contain a fuel map with an injector opening time for basic conditions of speed and load. Information is then gathered from engine sensors such as the AFM, CPS, CTS, and TPS. As a result of this information, the ECU will look-up the correct injector pulse duration right across the engine rpm, load and temperature ...
