(make) → (model) → (year) → (trim) → (style) You will see many references throughout the documentation for vehicle (or car) Model Year ID and Style ID. Most of the endpoints offered throughout the API require one of these IDs. Getting familiar with them is essential to taking full advantage of the Edmunds API.

Vehicle API - Edmunds

Model usage. SQL Server uses the model database as a template to create new databases.. Creating user objects in the model database is possible, but remember that after doing that every new database that will be created will have those objects as well,

meaning that new databases inherit everything (to be accurate, mostly everything as you will see forward) from the model database.

SQL Server system databases - the model database

Welcome to the Internet Movie Cars Database. You will find here the most complete list on the web about cars, bikes, trucks and other vehicles seen in movies and TV series, image captures and information about them. ... or select a make in the list below.
