Winning Chess

How to perfect your attacking play *Batsford*

Winning Chess is a truly classic chess book, beloved of chess-mad teenagers since it was first published in 1970, updated and repackaged in algebraic format. Written in lively, conversational style by two prolific and popular chess authors, it is aimed at players who have gone past the beginner stage and want to take their game to a whole new level. Its imaginative themes and instructional method are timeless, and the whole book is shot through with fun and humour.

Best Lessons of a Chess Coach

In the course of a game of chess, questions continually arise that test a player's reasoning skills. Questions such as: - "Who has the better position?"- "Should I resolve the tension in the center?"- "How can I improve the placement of my pieces?"In this long-awaited extension of the classic Best Lessons of a Chess Coach, the reader is invited to take a seat in the classroom of a renowned chess teacher, and learn how to answer such questions while experiencing the beauty, logic, and artistry of great chess games. When Sunil Weeramantry lectures on the games of top grandmasters, one can imagine making decisions alongside them. When he lectures on his own games, one can also experience the

personal excitement, disappointment, and satisfaction of a well-contested game of chess. The cumulative effect of studying these lessons is to give the aspiring player a wide range of tools with which to win.

The Most Instructive Games of Chess Ever Played

62 masterly games of chess strategy *Batsford*

One of the game's most admired and respected writers guides you through 62 masterly demonstrations of the basic strategies of winning at chess. Each game provides a classic example of a fundamental problem and its best resolution, described with chess diagrams and Chernev's lively and illuminating notes. The games - by chess greats such as Capablanca, Tarrasch, Fischer, Alekhine, Lasker and Petrosian - are instructive for chess players of all levels. The games turn theory into

practice, showing the reader how to attack and manoeuvre to control the board. Chernev runs through the winning strategies, suggests alternative tactics and celebrates the finesse of winning play. This is not only a book of 62 instructive chess games, but also 62 beautiful games to cherish.

Capablanca: Move by Move *Everyman Chess*

Jose Raul Capablanca is a chess legend, world champion and quite simply one of the greatest players in the history of the game. His achievements and seemingly effortless style of play won many admirers, and his legacy includes a treasure of instructive games. Studying Capablanca's play is a must for any aspiring chess player. For Cyrus Lakdawala, it was a key factor in his chess development and improvement, and in this book he revisits many of his favourite Capablanca games. Lakdawala examines Capablanca's skills in attack, defence, counter-attack, exploiting imbalances, accumulating advantages and, of course, his legendary endgame play. Move by Move provides an ideal platform to study chess. By continually challenging the reader to answer probing questions throughout the book, the Move by Move format greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to improve your chess skills and knowledge.

Invisible Chess Moves

Discover Your Blind Spots and Stop Overlooking Simple Wins *New In Chess*

Every chess player knows that some moves are harder to see than others. Why is it that, frequently, uncomplicated wins simply do not enter your mind? Even strong grandmasters suffer from blind spots that obscure some of the best ideas during a game. What is more: often both players fail to see the opportunity that is right in front of their eyes. Neiman and Afek have researched this problem and discovered that there are actually reasons why your brain discards certain ideas. In this book they demonstrate different categories of hard-to-see chess moves and clearly explain the psychological, positional and geometric factors which cloud your brain. Invisible Chess Moves with its many unique examples, instructive explanations and illuminative tests, will teach how to discover your blind spots and see the moves which remain invisible for others. Your results at the board will improve dramatically because

your brain will stop blocking winning ideas.

Chess Strategy for Club Players

The Road to Positional Advantage
New In Chess

This new 3rd edition has, besides various corrections and improvements, a new introduction and a brand-new chapter called 'Total Control'. In this 35-page chapter Grooten adds the final instructive brick to his formidable, yet very accessible, building: inspired by Tigran Petrosian's playing style he explains amateurs how to exploit small advantages. With a new set of exercises. --- Every club player knows the problem: the opening has ended, and now what? First find the right plan, then the good moves will follow! With this book, International Master Herman Grooten presents to amateur players a complete and structured course on: how to recognize key characteristics in all types of positions how to make use of those characteristics to choose the right plan His teachings are based on the famous "Elements" of Wilhelm Steinitz, but Grooten has significantly expanded and updated the work of the first World Champion. He supplies many modern examples, tested in his own practice as a coach of talented youngsters. In *Chess Strategy for Club Players* you will learn the basic elements of positional understanding: -- pawn structure -- piece placement -- lead in development -- open files -- weaknesses -- space advantage -- king safety -- exploiting

small advantages. The author also explains what to do when, in a given position, the basic principles seem to point in different directions. Each chapter of this fundamental primer ends with a set of highly instructive exercises.

Forcing Chess Moves

The Key to Better Calculation *New In Chess*

WINNER of the ChessCafe 2008 Book of the Year Award SHORTLISTED for The Guardian 2008 Chess Book of the Year Award Why is it that the human brain so often refuses to consider winning chess tactics? Every chess fan marvels at the wonderful combinations with which famous masters win their games. How do they find those fantastic moves? Do they have special vision? And why do computers outwit us tactically? Forcing Chess Moves proposes a revolutionary method for finding winning moves. Charles Hertan has made an astonishing discovery: the failure to consider key moves is often due to human bias. Your brain tends to disregard many winning moves because they are counter-intuitive or look unnatural. It's a fact of life: computers outdo us humans when it comes to tactical vision and brute force calculation. So why not learn from them? Charles Hertan's radically different approach is: use COMPUTER EYES and always look for the most forcing move first. By studying forcing sequences

according to Hertan's method you will:
Develop analytical precision
Improve your tactical vision
Overcome human bias and staleness
Enjoy the calculation of difficult positions
Win more games by recognizing moves that matter. This New and Extended Fourth Edition of Hertan's award-winning modern classic includes 50 extra pages with new and instructive combinations. There is a foreword by three-time US chess champion Joel Benjamin, and a special foreword to this new edition by Swedish Grandmaster Pontus Carlsson.

The Art of Planning in Chess: Move By Move *Batsford*

A follow-up to Neil McDonald's incredibly successful 'Chess: The Art of Logical Thinking', this insightful book takes a close look at some of the most outstanding games from the last 6 years, commenting on every single move as the game unfolds. This time, however, the emphasis is on planning, and how players plan their strategy many moves ahead. The author's detailed approach gives you a rare opportunity to really get to the nitty-gritty of what goes through grandmasters' minds as they play. To avoid unnecessary repetition, the opening moves of each game are discussed more lightly - real discussion begins around the 10th move, which is where the planning stage really kicks in.
