### **Of People And Plants The**

Humans and plants have a complex relationship extending far back into our

joint evolutionary history. This legacy can be seen today as plants provide nutrition, fiber, pharmaceuticals, and energy for people and animals across the globe. Plant domestication and agriculture allowed human society to develop and our settlements to become more complex.

People are very much like plants. Plants need four things to grow – soil, time, sunlight and water. We are in fact exactly the same. All the time we are incubating seedlings of wisdom that are waiting to blossom.

### **People are Like Plants - Marie Buda**

New data in this year's report show there are 7,039 edible plants which hold potential as future foods, yet just 15 plants provide 90% of humanity's food energy intake, and four billion people rely entirely on three crops – rice, maize and wheat [2]. Relying on a handful of crops to feed the global population has contributed to malnutrition and left us vulnerable to climate change.
