The Context Of Legislating Constraints

The Context of Legislating provides a much-needed examination of how the rules, resources, and political conditions within and surrounding different institutions raise or lower the costs of

legislating. Using data tracking over 1,100 legislators, 230 committees and 12,000 bills introduced in ten state lower chambers, Shannon Jenkins examines how political conditions and institutional rules and resources shape the arc of the legislative process by raising the costs of some types of ...

...
A constraint is a condition, agency or force that impedes progress towards an objective or goal. There are a number of different types of constraint that can affect construction projects . Constraints should be identified, and described in as much detail as possible during the early stages of a project , so that awareness of them and their potential impact can be managed.

Legislative constraints in terms of architecture refers to things that by law must or must not be done. There are many different constraints that an architect faces when designing a building but in this post I will only be referring to those enforced by law. Firstly, one of the main legislative constraints are the building regulations.
