Despite initial misgivings, given some of the reviews, I found Steel Beneath the Skin to be quite an entertaining read. Congratulations, Niall (if that is your real name), you have a smooth, professional, and clever writing style. I found myself reading this one end to end almost non-stop (I had to sleep) and enjoying every minute.

This is the second inexplicably explicit novel I've read recently, and just like "Good Intentions", the sex in "Steel Beneath the Skin" overpowers

what was a strong story with potentially excellent characters. But I guess it's one hundred percent 'caveat emptor' when the cover art is a topless platinum blond with a big gun and tight leather pants!

Aneka Jansen is a woman out of her time. Suspended in nanostasis in deep space for over a thousand years, she is awoken to discover that the world is very different, but in some ways the same as the one she left. But a changed environment is not the largest thing she has to deal with; Aneka is a changed woman. There is steel beneath her

skin.
