Development - a development consisting of more than 3 units. These are typically strata developments and could be survey strata or built. Private Plumbing - Any internal pipework and fittings which begin at the master meter and are contained within the property boundary. This includes all pipework either side of the sub-meter. All private

Sub-meter options for multi -residential developments

The installation of a water submetering system (or designing to allow for one to be easily installed in the future) can increase the value of a property by greatly reducing one of the largest variable costs for the multi-family property owner. The use of wireless technology makes this economically feasible.

What Is Involved In Alternative Dispute Resolution

Submetering of utilities in multi-housing developments is a relatively young industry in the United States. Prior to the mid-1970s, most multi-housing projects were constructed under the master meter concept for utilities. Relatively inexpensive energy provided multifamily developers and owner/operators

little incentive to try and capture utility services consumed at the apartment level. Since ...
