By this, we mean a set of thinking and doing practices that are guided by a distinctive ethical stance. Post-development discourse is aligned with the long leftist tradition of critical analyses that accompanied the global consolidation, immediately after the Second World War, of a hegemonic mainstream development project.

Exploring Post-Development - Taylor & Francis Group

The postdevelopment critique holds that modern development theory is a creation of academia in tandem with an underlying political and economic ideology. The academic, political, and economic nature of development means it tends to be policy oriented, problem-driven, and therefore effective only in terms of and in relation to a particular, pre-existing social theory.

Post Development - Theories of Development

Post-development thinking does not constitute a theory of development. It is a useful and necessary concept. Operating as a concept, it does something very important and of great value to the field in which it is applied: it interrogates, navigates, examines, confronts, and at times supports existing theory in an effort to reform the huge post World War II “business” known as development.
