Change your attitude, change your life. We’re very good at explaining why we’re unhappy: bad job, bad relationships, bad luck. But there’s probably a better reason: bad attitudes. In Lord, Change My Attitude, James MacDonald shows us just how much our attitudes affect our lives. One of his bestsellers, this book is classic James: It’s clear, it’s inspiring, and it packs a punch. Drawing from the experience of the Israelites who grumbled through the wilderness, MacDonald shows how bad attitudes rob us of joy. Coveting, complaining, and being critical are not what our hearts were made for. They were made for thankfulness, contentment, and love. Is your heart straining under the weight of a bad attitude? Don't read this book if you’re looking for a quick fix. Don't read this book if you’re unwilling to change. Read it if you’re ready for a serious, inside-out attitude adjustment.

A Century and Some Change Simon and Schuster

President-elect Barack Obama reflected on the life of Ann Nixon Cooper on Tuesday, November 4, 2008, singling her out of millions of voters, he said, because she was “born just a generation past slavery; a time when there were no cars on the road or planes in the sky, when someone like her couldn’t vote for two reasons—because she was a woman and because of the color of her skin.” Energized by this history-making presidential campaign, Mrs. Cooper now shares her story, her life before the president called her name, in her own voice, with the assistance of bestselling author Karen Grigsby Bates. Mrs. Cooper is the beloved matriarch of a large and accomplished family who live throughout the country, and a long-celebrated elder in the city of Atlanta, Georgia, where she raised her children and has lived most of her long and extraordinary life. She was born and raised in Bedford County, Tennessee, near Nashville, on January 9, 1902. Her father was a tenant farmer, and her mother worked at home, taking care of the children. She met her husband, Dr. Albert Berry Cooper II, while he attended Meharry Medical College in Nashville. They settled in his hometown of Atlanta, where he established a successful practice in dentistry. When president-elect Obama referred to her in his speech, she became a celebrity, sought after by media from all over the world. In Mrs. Cooper’s words, “All of a sudden, everyone wanted to talk to me. . . . It was nice they were interested, I guess, but I wasn’t so thrilled that media and ordinary folk were acting as if the only exciting thing I’d ever done was vote for a black man for president. . . . I’d had a life before CNN and the rest ‘discovered’ me.” And she is going to tell you about it.

Reset *Random House*

The “necessary and incisive” (Roxane Gay) account of the discrimination case that “has blown open a conversation about the status of women” in the workplace (The New York Times) SHORTLISTED FOR THE 2017 FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR | NAMED A BEST FALL BOOK BY ELLE AND BUSTLE In 2015, Ellen K. Pao sued a powerhouse Silicon Valley venture capital firm, calling out workplace discrimination and retaliation against women and other underrepresented groups. Her suit rocked the tech world—and exposed its toxic culture and its homogeneity. Her message overcame negative PR attacks that took aim at her professional conduct and her personal life, and she won widespread public support—Time hailed her as “the face of change.” Though Pao lost her suit, she revolutionized the conversation at tech offices, in the media, and around the world. In Reset, she tells her full story for the first time. The daughter of immigrants, Pao was taught that through hard work she could achieve her dreams. She earned multiple Ivy League degrees, worked at top startups, and in 2005 was recruited by Kleiner Perkins, arguably the world’s leading venture capital firm at the time. In many ways, she did everything right, and yet she and other women and people of color were excluded from success—cut out of decisive meetings and email discussions, uninvited to CEO dinners and lavish networking trips, and had their work undercut or appropriated by male executives. It was time for a system reset. After Kleiner, Pao became CEO of reddit, where she took forceful action to change the status quo for the company and its product. She banned revenge porn and unauthorized nude photos—an action other large media sites later followed—and shut down parts of reddit over online harassment. She and seven other women tech leaders formed Project Include, an

award-winning nonprofit for accelerating diversity and inclusion in tech. In her book, Pao shines a light on troubling issues that plague today’s workplace and lays out practical, inspiring, and achievable goals for a better future. Ellen K. Pao’s Reset is a rallying cry—the story of a whistleblower who aims to empower everyone struggling to be heard, in Silicon Valley and beyond. Praise for Reset “Necessary and incisive . . . As Ellen Pao detailed her experiences, while also communicating her passion for the work men often impeded her from doing, I was nothing short of infuriated. It was great to see a highly accomplished woman of color speaking out like this, and hopefully this book will encourage more women to come forward, give voice to their experiences in the workplace, and contribute to meaningful change.”—Roxane Gay

How to Avoid a Climate Disaster *Knopf*
#1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

Change Little, Brown Spark
How to create the change you want to see in the world using the paradigm-busting ideas in this "utterly fascinating" (Adam Grant) big-idea book. Most of what we know about how ideas spread comes from bestselling authors who give us a compelling picture of a world, in which "influencers" are king, "sticky" ideas "go viral," and good behavior is "nudged" forward. The problem is that the world they describe is a world where information spreads, but beliefs and behaviors stay the same. When it comes to lasting change in what we think or the way we live, the dynamics are different: beliefs and behaviors are not transmitted from person to person in the simple way that a virus is. The real story of social change is more complex. When we are exposed to a new idea, our social networks guide our responses in striking and surprising ways. Drawing on deep-yet-accessible research and fascinating examples from the spread of coronavirus to the success of the Black Lives Matter movement, the failure of Google+, and the rise of political polarization, Change presents groundbreaking and paradigm-shifting new science for understanding what drives change, and how we can change the world around us.

Man of My Time *Farrar, Straus and Giroux*

One of The New York Times's 100 Notable Books of 2020. A New York Times Book Review Editors' Choice. "Finely wrought, a master class in the layering of time and contradiction that gives us a deeply imagined, and deeply human, soul." --Rebecca Makkai, The New York Times Book Review From the bestselling author of The Septembers of Shiraz, the story of an Iranian man reckoning with his capacity for love and evil Set in Iran and New York City, Man of My Time tells the story of Hamid Mozaffarian, who is as alienated from himself as he is from the world around him. After decades of ambivalent work as an interrogator with the Iranian regime, Hamid travels on a diplomatic mission to New York, where he encounters his estranged family and retrieves the ashes of his father, whose dying wish was to be buried in Iran. Tucked in his pocket throughout the trip, the ashes propel him into a first-person excavation—full of mordant wit and bitter memory—of a lifetime of betrayal, and prompt him to trace his own evolution from a perceptive boy in love with marbles to a man who, on seeing his own reflection, is startled to encounter someone he no longer recognizes. As he reconnects with his brother and others living in exile, Hamid is forced to reckon with his past, with the insidious nature of violence, and with his

entrenchment in a system that for decades ensnared him. Politically complex and emotionally compelling, Man of My Time explores variations of loss—of people, places, ideals, time, and self. This is a novel not only about family and memory but about the interdependence of captor and captive, of citizen and country, of an individual and his or her heritage. With sensitivity and strength, Dalia Sofer conjures the interior lives of the “generation that had borne and inflicted what could not be undone.”
