When talking about brightness/darkness applied to harmony, we're not describing the timbre of an instrument (a crash cymbal is brighter than a kick drum; new acoustic guitar strings are brighter

than old ones, etc.). This type of brightness has to do with the frequency spectrum rather than with musical notation.

At once challenging, provocative, and lovely, "Night's Bright Darkness" is beautifully told in vivid and gripping prose. In it, Read describes as far as possible the experience of conversion from the inside out. The book isn't heavy on rational defenses of Catholicism, so do not buy it if you are looking for arguments.

Out in the void of space There is a shining light On a clear night you can see The brightness of it coming thru Even on the darkest night It still shows itself The bright darkness of it all Will make you think that even tho There is all this blackness There is still hope for light Within us all there is this Fighting thru all the pain The light pushes thru to explore To the outer limits it reaches Till it will brighten everything And hide all the darkness
