Bridie Andrews's new book *The Making of Modern Chinese Medicine, 1850-1960* aims to bring Western readers a new account of the history of modern "Chinese" medicine. Her analysis is grounded on the

contemporary intellectual view that the idea of a universal and normative modernity is largely considered as an illusion of the mid-twentieth-century elite, who tended to believe that an ideal scientific "Western" medicine emerged against a nonscientific traditional "Chinese" medicine ...

There is much of interest in Other-Worldly for those desiring a broader understanding of the social and cultural contexts in which Chinese medicine

happens. I was taken aback however by the author stating that James Reston physically experienced acupuncture anesthesia.
