Biography and Mission of Muhammad Ibn Abdul Wahhab

Muhammad Ibn 'Abd Al-Wahhab

The Man and His Works *I.B. Tauris*

The Arabian religious reform movement of the 18th and 19th centuries, known in the West as Wahhabism, is one of the most controversial and misunderstood religious movements of the modern Middle East. This biography of its founder, Muhammad ibn Abd al-Wahhab, is the first serious English-language account written not from a Western, but an Arabian perspective. Based on exhaustive research of primary sources, 'Abd-Allah Salih al-'Uthaymin reconstructs the social, political and spiritual environment of the Arabian peninsula in the time of Ibn Abd al-Wahhab. The author charts this movement's intellectual development and growing sway, and unpicks the historic alliance of its founder with the House of Al Sa'ud: a uniquely close partnership of political and religious relationships whose legacy is felt in the Saudi state to this day. Al-Uthaymin also provides a detailed exposition and commentary on Ibn Abd al-Wahhab's doctrines, based on his published and unpublished works, and explains his perspective on concepts such as tawhid, takfir and sharia. This meticulously researched biography offers a unique insight into its complex and often controversial subject. As such, it will become essential reading for anyone interested in political Islam, Saudi Arabia and the modern Middle East.

From Revival and Reform to Global Jihad *Oxford University*

Before 9/11, few Westerners had heard of Wahhabism. Today, it is a household word. Frequently mentioned in association with Osama bin Laden, Wahhabism is portrayed by the media and public officials as an intolerant, puritanical, militant interpretation of Islam that calls for the wholesale destruction of the West in a jihad of global proportions. In the first study ever undertaken of the writings of Wahhabism's founder, Muhammad Ibn Abd al-Wahhab (1702-1791), Natana DeLong-Bas shatters these stereotypes and misconceptions. Her reading of Ibn Abd al-Wahhab's works produces a revisionist thesis: Ibn Abd al-Wahhab was not the godfather of contemporary terrorist movements. Rather, he was a voice of reform, reflecting mainstream 18th-century Islamic thought. His vision of Islamic society was based upon a monotheism in which Muslims, Christians and Jews were to enjoy peaceful co-existence and cooperative commercial and treaty relations. Eschewing medieval interpretations of the Quran and hadith (sayings and deeds of the prophet Muhammad), Ibn Abd al-Wahhab called for direct, historically contextualized interpretation of scripture by both women and men. His understanding of theology and Islamic law was rooted in Quranic values, rather than literal interpretations. A strong proponent of women's rights, he called for a balance of rights between women and men both within marriage and in access to education and public space. In the most comprehensive study of Ibn Abd al-Wahhab's interpretation of jihad ever written, DeLong-Bas details a vision in which jihad is strictly limited to the self-defense of the Muslim community against military aggression. Contemporary extremists like Osama bin Laden do not have their origins in

Wahhabism, she shows. The hallmark jihadi focus on a cult of martyrdom, the strict division of the world into two necessarily opposing spheres, the wholesale destruction of both civilian life and property, and the call for global jihad are entirely absent from Ibn Abd al-Wahhab's writings. Instead, the militant stance of contemporary jihadism lies in adherence to the writings of the medieval scholar, Ibn Taymiyya, and the 20th century Egyptian radical, Sayyid Qutb. This pathbreaking book fills an enormous gap in the literature about Wahhabism by returning to the original writings of its founder. Bound to be controversial, it will be impossible to ignore.

The Birth of the Islamic Reform Movement in Saudi Arabia

Muhammad Ibn 'Abd Al-Wahhāb (1703/4-1792) and the Beginnings of Unitarian Empire in Arabia *Arabian Pub Limited*

Current troubles in the Middle East have focused much international attention on Saudi Arabia. However, little has been

published in English on the background to its culture and its roots in the First Saudi State that arose in 18th-century central Arabia. The Islamic reform movement that gave it its sense of mission, and the life and thought of Shaikh Muhammad b. ʿAbd al-Wahhab (1703-1792), the teacher who inspired it, have been similarly neglected. Often referred to outside Arabia as Wahhabism, the Shaikh's teachings have been a fundamental influence on the lives of Saudi Arabians and their government ever since his death in 1792. His ideas continue to inspire his many followers, both inside the Kingdom and abroad, and a knowledge of his life and thought is vital to a proper understanding of both Saudi Arabia and the Arab world of today. Students of Saudi Arabian history have long recognized George S. Rentz's thesis on the Shaikh's life and the origins of the First Saudi State as a work of pioneering scholarship. Despite this, since its acceptance in 1947 by the University of California, it has never before now been published. Closely basing his account on the local Najdi chroniclers who were contemporary with many of the events they describe, Rentz pieces together the life and thought of the thinker who, using as his guide orthodox Hanbalite doctrine, set out to purify Islam as he saw it practised around him, and to direct Muslims back to the original fountainhead of their faith. In the process Rentz tells the colourful story of the creation of the First Saudi State (1745-1818) with its capital at al-Diriyah, near present-day Riyadh.

The Future of Islam *Oxford University Press*

John L. Esposito is one of America's leading authorities on Islam. Now, in this brilliant portrait of Islam today-- and tomorrow-- he draws on a lifetime of thought and research to provide an accurate, richly nuanced, and revelatory account of the fastest growing religion in the world. Here Esposito explores the major questions and issues that face Islam in the 21st century and that will deeply affect global politics: Is Islam compatible with modern notions of democracy, rule of law, gender equality, and human rights? How representative and widespread is Islamic fundamentalism and the threat of global terrorism? Can Muslim minority communities be loyal citizens in America and Europe? In the midst of these questions Esposito places an important emphasis on the issue of Islamophobia, the threat it poses, and its vast impact on politics and society in the US and Europe. He also turns the mirror on the US and Europe and paints a revealing portrait of how we appear to Muslims. Recent decades have brought extraordinary changes in the Muslim world, and in

addressing these issues, Esposito paints a complex picture of Islam in all its diversity--a picture of urgent importance as we face the challenges of the coming century.

A Critical Analysis of Shirk

An Explanation of the SIX FUNDAMENTAL PRINCIPLES by Muhammad Ibn Abdul Wahhab

شرح الأصول الستة

The Six Fundamental Principles is one of the numerous short articles written by Shaykh Muhammad ibn Abdul Wahhab in his effort to spread tawhîd (Islamic monotheism) in the Arabian Peninsula. His works are distinguished by their brevity, ease of understanding, and reliance on texts from the Qur'ân and Sunnah. The current book is the translation of an explanation made by the illustrious scholar, Shaykh Salih Al-Fawzan.

Reconfiguring Islamic Tradition

Reform, Rationality, and Modernity *Stanford University Press*

Samira Haj conceptualizes Islam through a close reading of two Muslim reformers—Muhammad ibn 'Abdul Wahhab (1703–1787) and Muhammad 'Abduh (1849–1905)—each representative of a distinct trend, chronological as well as philosophical, in modern Islam. Their works are examined primarily through the prism of

two conceptual questions: the idea of the modern and the formation of a Muslim subject. Approaching Islam through the works of these two Muslims, she illuminates aspects of Islamic modernity that have been obscured and problematizes assumptions founded on the oppositional dichotomies of modern/traditional, secular/sacred, and liberal/fundamentalist. The book explores the notions of the community-society and the subject's location within it to demonstrate how Muslims in different historical contexts responded differently to theological and practical questions. This knowledge will help us better understand the conflicts currently unfolding in parts of the Arab world.

The Two Faces of Islam

Saudi Fundamentalism and Its Role in Terrorism *Anchor*

Since its formation in 1932, Saudi Arabia has been ruled by two interdependent families. The Al Sa'uds control politics and the descendants of Ibn Abd al-Wahhab impose Wahhabism—a violent, fanatical perversion of the pluralistic Islam practiced by most Muslims. Stephen Schwartz argues that Wahhabism, vigorously exported with the help of Saudi oil money, is what incites Palestinian suicide bombers, Osama bin Laden, and other Islamic terrorists throughout the world. Schwartz reveals the hypocrisy of the Saudi regime, whose moderate facade conceals state-sponsored repression and terrorism. He also raises troubling questions about Wahhabi infiltration of America's Islamic community and about U.S. oil companies sanitizing Saudi Arabia's image for the West. This sharp analysis and eye-opening

expose illuminates the background to the September 11th terrorist attacks and offers new approaches for U.S. policy toward its closest ally in the Middle East.

The (De)Legitimization of Violence in Sacred and Human Contexts *Springer Nature*

This book provides a multidisciplinary commentary on a wide range of religious traditions and their relationship to acts of violence. Hate and violence occur at every level of human interaction, as do peace and compassion. Scholars of religion have a particular obligation to make sense out of this situation, tracing its history and variables, and drawing lessons for the future. From the formative periods of the religious traditions to their application in the contemporary world, the essays in this volume interrogate the views on violence found within the traditions and provide examples of religious practices that exacerbate or ameliorate situations of conflict.

Hempher, only one of the thousands of male and female agents employed and sent forth to all countries by this ministry, entrapped a person named Muhammad of Najd in Basra, misled him for several years, and caused him to establish the sect called Wahhabi in 1125 [1713 A.D.]. They announced this sect in 1150. The Clerics of Islam

Religious Authority and Political Power in Saudi Arabia

Yale University Press

Followers of Muhammad b. 'Abd al-Wahhab, often considered to be Islam's Martin Luther, shaped the political and religious identity of the Saudi state while also enabling the significant worldwide expansion of Salafist Islam. Studies of the movement he inspired, however, have often been limited by scholars' insufficient access to key sources within Saudi Arabia. Nabil Mouline was granted rare interviews and admittance to important Saudi archives in preparation for this groundbreaking book, the first in-depth study of the Wahhabi religious movement from its founding to the modern day. Gleaning information from both written and oral sources and employing a multidisciplinary approach that combines history, sociology, and Islamic studies, Mouline presents a new reading of this movement that

transcends the usual resort to polemics.

A History of Saudi Arabia *Cambridge University Press*

Counter Saudi Arabia is a wealthy and powerful country which wields influence in the West and across the Islamic world. Yet it remains a closed society. Its history in the twentieth century is dominated by the story of state formation. After the collapse of the Ottoman Empire, Ibn Sa'ud fought a long campaign to bring together a disparate people from across the Arabian peninsula. In 1932 the Kingdom of Saudi Arabia was born. Madawi al-Rasheed traces its extraordinary history from the age of emirates in the nineteenth century, through the 1990 Gulf War, to the present day. She fuses chronology with analysis, personal experience with oral histories, and draws on local and foreign documents to illuminate the social and cultural life of the Saudis. This is a rich and rewarding book which will be invaluable to students, and to all those trying to understand the enigma of Saudi Arabia.-from publisher description at <http://catdir.loc.gov/catdir/description/cam022/2001043609.html>.

The Wahhabi Mission and Saudi Arabia *Bloomsbury Publishing*

Wahhabism has been generating controversy since it first emerged in Arabia in the 18th century. In the wake of September 11th instant theories have emerged that try to root Osama Bin Laden's attacks on Wahhabism. Muslim critics have dismissed this conservative interpretation of Islam that is the official creed of Saudi Arabia as an unorthodox innovation that manipulated a suggestible people to gain political influence. David Commins'

book questions this assumption. He examines the debate on the nature of Wahhabism, and offers original findings on its ascendance in Saudi Arabia and spread throughout other parts of the Muslim world such as Afghanistan and Pakistan. He also assesses the challenge that radical militants within Saudi Arabia pose to the region, and draws conclusions which will concern all those who follow events in the Kingdom. "The Wahhabi Mission and Saudi Arabia" is an essential reading for anyone interested in the Middle East and Islamic radicalism today.
