Pastors, choirs, musicians and guest speakers rely on a quality sound system to clearly carry and broadcast their messages during services and events. Technical skill is required to set up, maintain, and run church sound systems, as well as troubleshoot any glitches that might occur.

Troubleshooting Your Church Sound System

Assisted listening systems are one of the most overlooked components of a church sound system. By not including assisted listening (or “hearing assist”) devices in your sound system, it is possible that members of your congregation are missing out on hearing God’s Word, and you may even be breaking the law. What is Assisted Listening?
