Golf Course Services - Irrigation by Design

Managing water hammer or surge pressure is key with any irrigation design. Golf course systems are unique in that wide swings in flow are common and frequent, surges cannot be prevented but rather are calculated in the design and managed by main line routing, pipe size, air relief valves and central control in more modern systems.

Why golf courses need irrigation systems. Like all living things, grass relies on water to survive. But natural rainfall is irregular. Despite our best forecasting efforts it can be uncertain when it is going to rain, or how much we are going to get, and so that can't be relied upon to provide enough water for the plant to flourish on its own.
