To check the brake lights, you'll need some help. Press the brake pedal whilst someone else checks they come on. Don't forget your high-level brake light (this will be above your car's rear windscreen), or your reversing lights. TOP TIP: If you don't have a helper, park next to something reflective. A wall or garage door will do.

Brake-light problems on the Ford Super Duty are caused by one of a few issues. A faulty fuse, faulty wiring at the housing terminal and a blown bulb are the most common problems. Occasionally, the brake light switch might fail. However, before you go replacing parts, troubleshoot the problem first. Step 1. Check the fuse. This is always the first thing you should do when troubleshooting brake ...
