The Reckoning

A Novel Dell

Pete Banning was Clanton, Mississippi's favorite son—a decorated World War II hero, the patriarch of a prominent family, a farmer, father, neighbor, and a faithful member of the Methodist church. Then one cool October morning he rose early, drove into town, walked into the church, and calmly shot and killed his pastor and friend, the Reverend Dexter Bell. As if the murder weren't shocking enough, it was even more baffling that Pete's only statement about it—to the sheriff, to his lawyers, to the judge, to

the jury, and to his family—was: "I have nothing to say." He was not afraid of death and was willing to take his motive to the grave.

A Curious Chain of Events seeks to address the main issues of science and philosophy. What is the difference between an object and a concept? What is truth and love? What does it mean to be alive, to have consciousness and intelligence? What is reality? What does it mean to exist? What is motion and what is time? A Curious Chain Of Events is a story about the love between a man and his wife. Paul is a scientist and Rhonda was a philosopher. Paul is grieving over the loss of his wife who died recently in an auto accident. Rhonda is always on his mind, and he attempts to hold on to her memory by obsessing over their previous conversations. They were often on opposite sides, but Paul had learned to respect, and even depend on Rhonda's point of view. Paul comes up with many ideas while reliving their discussions, and is working on a number of projects at his company's laboratories centered mostly on synthetic biology, DNA, artificial intelligence, and various single celled organisms. Paul will do anything to keep Rhonda's memory alive. Anything. Paul's company, LoTech Laboratories, has developed a new type of photo voltaic, oil eating bacteria, pollution absorbing phytoplankton, Large Cell Technology, Smart Jeans (yes, with a J) and more. Kept secret from the rest of HiTech Labs, Paul and a small team have created an artificial intelligence that lives in a neural network in a hidden lab. The story brings to the reader's attention many philosophical ideas and ethical concerns about the sanctity of life and bio technology. Although the story is fiction, it is based on cutting edge science and technology. Be prepared to stretch your imagination and your reading comprehension. Expect to be challenged intellectually and

philosophically, to expand your borders, and to possibly step out of your comfort zone.

Sometimes Brilliant

The Impossible Adventure of a Spiritual Seeker and Visionary Physician Who Helped Conquer the Worst Disease in History *HarperCollins*

When a powerful mystic steps on the hand of a radical young hippie doctor from Detroit, it changes lives and the world. *Sometimes Brilliant* is the adventures of a philosopher, mystic, hippie, doctor, groundbreaking tech innovator, and key player in the eradication of one of the worst pandemics in human history. His story, of what happens when love, compassion and determination meet the right circumstances to effect positive change, is the kind that keeps hope and the sense of possibility alive. After sitting at the feet of Martin Luther King at the University of Michigan in 1963, Larry Brilliant was swept up into the civil rights movement, marching and protesting across America and Europe. As a radical young doctor he followed the

hippie trail from London over the Khyber Pass with his wife Girija, Wavy Gravy and the Hog Farm commune to India. There, he found himself in a Himalayan ashram wondering whether he had stumbled into a cult. Instead, one of India's greatest spiritual teachers, Neem Karoli Baba, opened Larry's heart and told him his destiny was to work for the World Health Organization to help eradicate killer smallpox. He would never have believed he would become a key player in eliminating a 10,000-year-old disease that killed more than half a billion people in the 20th century alone. *Brilliant's* unlikely trajectory, chronicled in *Sometimes Brilliant*, has brought him into close proximity with political leaders, spiritual masters, cultural heroes, and titans of technology around the world—from the Grateful Dead to Mikhail Gorbachev, from Ram Dass, the Dalai Lama, Lama Govinda, and Karmapa to Steve Jobs and the founders of Google, Salesforce, Facebook, Microsoft and eBay and Presidents Carter, Clinton, Bush and Obama. Anchored by the engrossing account of the heroic efforts of the extraordinary people involved in smallpox eradication in India, this is a riveting and fascinating epidemiological adventure, an honest reckoning of an entire generation, and a deeply moving spiritual memoir. It is a testament to faith, love, service, and what it means to engage with life's most important questions in pursuit of a better, more brilliant existence.
