This book explores a hitherto neglected area of theological anthropology: the unity of human emotionality and rationality embodied in the biblical concept of the heart. While the theological contours of human reason have for long been clearly drawn and presented as the exclusive seat of the image of God, affectivity has been relegated to a secondary position. With the reintegration of the body into recent philosophical and theological discourses, a number of questions have arisen: if the image (also) resides in the body, how does this change one's view of the theological significance of human affectivity? In what way is our likeness to God realized in the whole of what we are? Can one overcome the traditional dissociation between intellect and affectivity by a renewed theory of love? In conversation with patristic and medieval authors (e.g., Irenaeus, Tertullian, Gregory of Nyssa, Maximus, Aquinas) and in dialogue with more recent interlocutors (Pascal, Ricoeur, Marion, Milbank, John Paul II), this work pursues a novel theological vision of the essential unity of our humanity.

The Heart Has Its Reasons, Looking Back Looking Ahead. What if we could look ahead while still looking back? What if hard-won insight was ours to use when we needed it? This short book puts such possibilities within our reach. In a series of brief articles, the author explains important thoughts in relating to God, oneself and others. These insights, gained with age and experience, nudge us to find a new path. Then the rest of our journey becomes transforming. With God back in the center, others in their rightful place, and we striving harder, our relationships could regain the luster they once had. The heart, the seat of love, looks back to learn lessons and looks ahead in hope. When lessons of the past become sentinels for the future, we gain peace and joy. To attain that state we must learn to open our hearts to God and others. The theme on the heart throbs in the two parts of the book: One, Love yourself and bleed for others; two, Love God above all else. Twenty-two chapters, a Prologue and an Epilogue resonate the theme. Here are some titles: * Reflections on the year gone by * Does evil serve a purpose? * Does pain heal? * How do we respond to those who offend us? * A crusade for healing * Why do we treat God so badly? The author does not stop at asking questions. In a simple and direct style he answers them - without preaching. Journey with him to look upon a new horizon! Praise for the book: "The thoughts are of Christian inspiration and stimulating, the language is mellifluous and racy, and the book makes pleasant reading. This is a valuable book that can surely help the interested reader towards betterment of self and society." Dr George Kaitholil, Author and Former General Editor of St. Pauls and Better Yourself Books.

Head and Heart *Templeton Foundation Press*

Theologians and religious figures often draw a distinction between religion of the "head" and religion of the "heart," but few stop to ask what the terms "head" and "heart" actually denote. Many assume that this distinction has a scriptural basis, and yet many Biblical authors used the word "heart" as a synonym for "mind." In fact, there isn't a strict separation of the two concepts until the modern period, as in Pascal's famous claim that "the heart has its reasons that reason can not know." Since then, many other philosophers and theologians have made a

similar distinction. The fact that this distinction has been so persistent makes it an important area of study. *Head and Heart: Perspectives from Religion and Psychology* takes an interdisciplinary approach, linking the thinking of theologians and philosophers with theory and research in present-day psychology. The tradition of using framing questions that have been developed in theology and philosophy can now be brought into dialogue with scientific approaches developed within cognitive psychology and neuroscience. Though these scientific approaches have not generally used the terms “head” and “heart,” they have arrived at a similar distinction in other ways. There is a notable convergence upon the realization that humans have two modes of cognition at their disposal that correspond to “head” and “heart.” The time is therefore ripe to bring the approaches of theology and science in to dialogue—an important dialogue that has been heretofore neglected. *Head and Heart* draws on the unique expertise in relating theology and psychology of the University of Cambridge’s Psychology and Religion Research Group (PRRG). In addition to providing historical and theoretical perspectives, the contributors to this volume will also address practical issues arising from the group’s applied work in deradicalisation and religious education. Contributors include Geoff Dumbreck, Nicholas J. S. Gibson, Malcolm Guite, Liz Gulliford, Russell Re Manning, Glendon L. Moriarty, Sally Myers, Sara Savage, Carissa A. Sharp, Fraser Watts, Harris Wiseman, and Bonnie Poon Zahl.

A Wrinkle in Time GENERAL PRESS

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

The Reasons of Love Princeton University Press

This beautifully written book by one of the world's leading moral philosophers argues that the key to a fulfilled life is to pursue wholeheartedly what one cares about, that love is the most

authoritative form of caring, and that the purest form of love is, in a complicated way, self-love. Harry Frankfurt writes that it is through caring that we infuse the world with meaning. Caring provides us with stable ambitions and concerns; it shapes the framework of aims and interests within which we lead our lives. The most basic and essential question for a person to raise about the conduct of his or her life is not what he or she should care about but what, in fact, he or she cannot help caring about. The most important form of caring, Frankfurt writes, is love, a nonvoluntary, disinterested concern for the flourishing of what is loved. Love is so important because meaningful practical reasoning must be grounded in ends that we do not seek only to attain other ends, and because it is in loving that we become bound to final ends desired for their own sakes. Frankfurt argues that the purest form of love is self-love. This sounds perverse, but self-love--as distinct from self-indulgence--is at heart a disinterested concern for whatever it is that the person loves. The most elementary form of self-love is nothing more than the desire of a person to love. Insofar as this is true, self-love is simply a commitment to finding meaning in our lives.

Drinking Occasions Routledge

The main purpose of this book is to describe the variety of drinking occasions that exist around the world, primarily in modern, industrialized countries. As such, it celebrates the diversity of normal drinking behavior and illustrates a wide range of beneficial drinking patterns. Attention is also paid to the relations between drink and culture that prevail in non-Western societies and in developing countries. The aims of the book are twofold: to deal directly with the challenge of how to define responsible drinking in the face of the world's many different drinking styles, and to portray the many ways in which people have thought about or used alcohol as an integral part of their culture

Making Spaces *Routledge*

This book argues for the value and application of psychoanalytic thinking beyond, as well as within, the consulting room. Inspired

by a Scottish psychoanalytic tradition that owes much to W.R.D. Fairbairn and J.D. Sutherland, the Scottish Institute of Human Relations has provided a valuable reference point for the work described in the book. It illustrates how the coming together of human beings into a shared space fosters opportunities to create loving, collaborative relationships in which to work and from which to grow. The book's first section explores how psychoanalytic thinking developed in Scotland, while section two focuses on work with children, families and couples, showing how psychoanalytic perspectives can be used to strengthen capacities for loving relationships. The chapters in section three show how psychoanalysis can be applied in such varied settings as psycho-social research, education, institutional development and organisational consultancy. The fourth section pursues this theme further, considering the potential of psychoanalytic concepts to enhance work in religious ministry, in medical and psychiatric services, and in understanding the processes of ageing.

First and Last Things *Routledge*

Part meditation, part commonplace book, First and Last Things is an attempt by a writer of great distinction and strong convictions to take stock of his beliefs and values. Here, Richard Hoggart considers the big questions without shortchanging readers with easy answers. He examines problems (as he sees them) of faith; the mysterious origins of conscience; the importance of family and friends; the value of literature; the nature of memory; and the need, in old age, to find some value in existence. To these issues, and many others, the author brings a lifetime of rich experience and a mind well stocked with the best that has been written by those who have gone before. What emerges above all in this work is Richard Hoggart's love of, almost obsession with, quotations from great authors, especially, of course, Shakespeare. He muses on the business of capitalism and democracy, noting a reluctant conclusion that democracy is the least worst form of government, and that capitalism is its inevitable partner, but one which democratic societies should treat with "a very long spoon." He argues that market and

consumer driven societies are inevitably led to relativism, head-counting, and populism. The result is a book that is introspective without being self-absorbed, that is thought-provoking but never preaching, that is, profound without being portentous. *First and Last Things* is a work that the young should read, if only to discover how much there is still to understand, and one that the old will treasure.

The Heart Has Its Reasons

Representing the Rainbow in Young Adult Literature *Rowman & Littlefield*

Discussions of gender and sexuality have become part of mainstream conversations and are being reflected in the work of more and more writers of fiction, particularly in literature aimed at young adult audiences. But young readers, regardless of their sexual orientation, don't always know what books offer well-rounded portrayals of queer characters and situations. Fortunately, finding positive role models in fiction that features LGBTQ+ themes has become less problematic, though not without its challenges. In *Representing the Rainbow in Young Adult Literature: LGBTQ+ Content since 1969*, Christine Jenkins and Michael Cart provide an overview of the literary landscape.

An expanded version of *The Heart Has Its Reasons*, this volume charts the evolution of YA literature that features characters and themes which resonate not only with LGBTQ+ readers but with their allies as well. In this resource, Jenkins and Cart identify titles that are notable either for their excellence—accurate, thoughtful, and tactful depictions—or deficiencies—books that are wrongheaded, stereotypical, or outdated. Each chapter has been significantly updated, and this edition also includes new chapters on bisexual, transgender, and intersex issues and characters, as well as chapters on comics, graphic novels, and works of nonfiction. This book also features an annotated bibliography and a number of author-title lists of books discussed in the text that will aid teachers, librarians, parents, and teen readers. Encompassing a wider array of sexual identities, *Representing the Rainbow in Young Adult Literature* is an invaluable resource for young people eager to read about books relevant to them and their lives.
