I want to rename all my avi videos. All the avi videos are in the current directory. I do it like this 'ren ./original.avi new.avi'. But it says the syntax of the command is incorrect.

cmd - how to use ren/rename - Stack Overflow

The answer is going to depend on your setup. in most people setup the v_GS_Computer_System will display the last logon user that ConfigMgr knows about, but even that will not guarantee to be the last logon user as it will in most cases be up to 24h old. As for the time they logon, this information

is not collected by ConfigMgr. if you need this information then you need to look at OpsMgr with ACS.
