Law and economics or
 economic analysis of
 law is the application
 of economic theory to
 the analysis of law that
 began mostly with
 scholars from the
 Chicago school of
 economics. Economic
 concepts are used to
 explain the effects of
 laws, to assess which

 economically efficient,
 and to predict which
 legal rules will be
 promulgated. There
 are two major

branches of law and economics. The first branch is based on the application of the methods and theories of neoclassical economics to t

Law and economics - Wikipedia

Information economics or the economics of information is a branch of microeconomic theory that studies how information and information systems affect an economy and economic decisions. Information has special characteristics: It is easy to create but hard to trust. It is easy to spread but hard to control. It influences many decisions. These special characteristics complicate many standard economic theories. The subject of "information economics" is treated
