Laboratory tests were undertaken to define the steam-limiting characteristics of this device under field representative SAGD conditions at full scale rates, temperatures and pressures. Tests were performed with oil to gauge viscosity sensitivity, as well as with water and steam at various inflow rates, temperatures and steam qualities.

Laboratory and Field Testing of a Steam-limiting Flow ...

The test measures the permeability (k) of the soil and because it is carried out in-situ provides a more reliable result than can be determined in the laboratory. Implementation of the test and interpretation of the results requires experience of the various test techniques and knowledge of the site ground conditions.

Permeability testing - RSA Geotechnics

A medical laboratory or clinical laboratory is a laboratory where clinical pathology tests are carried out on clinical specimens to obtain information about the health of a patient to aid in diagnosis, treatment, and prevention of disease. Clinical Medical laboratories are an example of applied science, as opposed to research laboratories that focus on basic science, such as found in some academic institutions. Medical laboratories vary in size and complexity and so offer a variety of testing se
