Metallurgy is a domain of materials
science and engineering that studies the
physical and chemical behavior of
metallic elements, their inter-metallic
compounds, and their mixtures, which
are called alloys. Metallurgy
encompasses both the science and the
technology of metals. That is, the way in
which science is applied to the
production of metals, and the
engineering of metal components used
in products for both consumers and

manufacturers. Metallurgy is distinct from the craft of metalworking.
