Designing your science curriculum for success | STEM

What are the types of curriculum design? There are three basic types of curriculum design—subject-centered, learner-centered, and problem-centered design. Subject-centered curriculum design revolves around a particular subject matter or discipline, such as mathematics, literature or biology. This type of curriculum design tends to focus on the subject, rather than the student. It is the most common type of standardized curriculum that can be found in K-12 public schools.
