No, the E1000 Micro series does not support data logging! Can I talk to two different types of PLC using Ethernet? (MAC E Series) - KS00097 Yes this is possible but you can by attaching the two drivers to the same TCP/IP connection in peripheral settings after installing the network card.

Knowledge Base - Mitsubishi Electric Factory Automation - EMEA

Drivers in general differ between the E series and the E1000 series. This means that when updating the drivers, e.g. via the configuration software E-Designer 7, the user must make two downloads to update both the E series and the E1000 series drivers. This does not affect users that only use one of the product lines. The MPI Direct driver for the E1000 operator terminals is limited to a speed ...
