Forces In Action Key Stage 4 Science At Work

Everything on Earth is powered by forces, pushes and pulls which act on our bodies and the things around us . Forces make things move and stop moving. Some of the forces we are subject to are gravity (which keeps us on the Earth's surface), the centripetal force (the force that makes things move in circles) and friction (the force which makes things stick or slide).

Forces In Action Key Stage 4 Science At Work

No force exists by itself. Every action has an equal and opposite reaction. If you push on something (action) it pushes back (reaction). With a racing car the wheel tries to push the road backwards...

What are forces? - BBC Bitesize

The types of forces KS2 will learn about are: Gravity - keeping us grounded, gravity is the force that pulls objects downwards, towards the earth's centre. This is why, when we drop things, they fall down to the floor. Friction - the force between two things moving against each other, which can

either slow down or speed up movement. For example, when we wear socks on a smooth floor, we can slide around as there’s less friction.

KS2 Forces and Motion - Year 3-6 Science Resources

A force can be a push or a pull. For example, when you push open a door you have to apply a force to the door. You also have to apply a force to pull open a drawer. You cannot see a force but often...
