The Effects of Autonomy on Job Satisfaction | Work - Chron.com

The idea of a self plays a central role in Western philosophy as well as in the Indian and other major traditions. Three main types of views of the self can be discerned. One moves from Kant’s conception of rationally autonomous self, another from the so-called homo-economicus theory, of Aristotelian descent. Both those types of views theorize the independence of the first person from its biological and social environment.
