The Electra poems of Sylvia Plath (1932–1963) teeter daringly on the edge between myth and mythology, between intense animation and immobile perfection. Early critics accurately assessed the importance of myth for Plath's work, in particular Judith Kroll in *Chapters in a Mythology* (1976), which traces moon imagery and other motifs back to Robert Graves's *The White Goddess*.

In Neo-Freudian psychology, the Electra complex, as proposed by Carl Jung in his Theory of Psychoanalysis, is a girl's psychosexual competition with her mother for possession of her father. In the course of her psychosexual development, the complex is the girl's phallic stage; a boy's analogous experience is the Oedipus complex. The Electra complex occurs in the third—phallic stage—of five psychosexual development stages: the Oral, the Anal, the Phallic, the Latent, and the Genital—in ...

Electra after Freud: Myth and Culture (review)

Freud called these complexes the Oedipus complex for boys and the Electra complexes for girls. He believed that both boys and girls go through these stages between the ages of three and six (Sigmund Freud's Psychosexual Development Theory, n.d.). Several ideas that Freud developed are still used today (such as the idea of the id, ego, and superego); however, some of Freud's theories have either been disproved or been extremely controversial as well.
