Notebook documents contains the inputs and outputs of a interactive session as well as additional text that accompanies the code but is not meant for execution.

The Jupyter Notebook — Jupyter Notebook 6.1.4 documentation
The Jupyter Notebook is a web-based interactive computing platform. The notebook combines live code, equations, narrative text, visualizations, interactive dashboards and other media.

Project Jupyter | Documentation
The Jupyter Notebook is based on a set of open standards for interactive computing. Think HTML and CSS for interactive computing on the web. These open standards can be leveraged by third party developers to build customized applications with embedded interactive computing. Jupyter Notebooks are an open document format based on JSON. They contain a complete record of the user's sessions and ...

Project Jupyter | Home

Notebook documents contain the inputs and outputs of an interactive session as well as narrative text that accompanies the code but is not meant for execution. Rich output generated by running code, including HTML, images, video, and plots, is embedded in the notebook, which makes it a complete and self-contained record of a computation.

Jupyter Notebooks — Python productivity for Zynq (Pynq)

The Jupyter Notebook used to be called the IPython Notebook. If you are running an older version of the IPython Notebook (version 3 or earlier) you can use the following to upgrade to the latest version of the Jupyter Notebook. If using Anaconda, update Jupyter using conda: conda update jupyter or. If using pip: pip install -U jupyter See Run the Notebook for running the Jupyter Notebook. See ...

Upgrading Jupyter Notebook — Jupyter Documentation 4.1.1 ...

4 min read The Jupyter notebook is an interactive notebook allowing you to write documents with embedded code, and execute this code on the fly. It was originally developed as a part of the Ipython project, and could only be used for Python code at that time.

How to Write Documentation with Jupyter | Packt Hub

When the notebook is refreshed in Jupyter, the input cells are read from the text file, and the output cells from the .ipynb file. It is possible (and convenient) to leave the notebook open in Jupyter while you edit its text representation. However, you don't want the two editors to save the notebook simultaneously.

Paired notebooks — Jupyter documentation

Jupyter Notebooks are structured data that represent your code, metadata, content, and outputs. When saved to disk, the notebook uses the extension .ipynb, and uses a JSON structure. For more information about the notebook format structure and specification, see the nbformat documentation. The Jupyter Notebook Interface ¶
