8 Keys to Parenting Children with ADHD (8 Keys to Mental Health) *W. W. Norton & Company*

Compassionate and effective strategies for raising a child with ADHD. Parenting children with ADHD, whether diagnosed or undiagnosed, can be challenging and complex. But just as a child who struggles with reading can learn to decode words, children with ADHD can learn patience, communication, and solution-seeking skills to become more confident, independent, and capable. This book, rich with optimism, tips, tools, and action plans, offers science-based insights and systems for parents to help cultivate these skills. Combining expert information with practical, sensitive advice, the eight "key" concepts here will help parents reduce chaos, improve cooperation, and nurture the advantages—like creativity and drive—that often accompany all of that energy. Based on author Cindy Goldrich's seven-session workshop entitled Calm and Connected: Parenting Kids with ADHD®, this book focuses on developing and strengthening effective interpersonal skills in both parents and children as a way to improve conflict resolution. Following the parenting principle to "Parent the child you have," Goldrich offers advice to help readers tailor their parenting to meet the needs of their unique child. The book also leads parents to recognize the value of being a leader and a guide to children, building parents' confidence in their decision-making, and giving children a sense of safety, security, and confidence. The principles outlined in 8 Keys to Parenting Children with ADHD are appropriate for parenting kids of all ages—until they have "launched" and are on their own.

This book will teach parents to train their children to manage their freedoms and protect their important heart to heart relationships.

Parenting with Love

Making a Difference in a Day *Bookcraft, Incorporated*

Parenting isn't easy. It's a lesson in patience, human behavior, and most important, it is a labor of love. In Parenting with Love, author Glenn Latham teaches parents simple and effective ways to change their own behavior and thus create an environment in which their children will behave well. The author explains that using positive reinforcement, appropriate touch, smiles, laughter, and attentive listening can help parents avert negative reactions from their children and approach those children more wisely in times of rebellion or disobedience. The author also encourages parents to avoid parenting traps, such as criticism, sarcasm, threats, and argumentative problem solving. After all, these methods of communication tend to fail when used on anyone; and the last place a parent should fall prey to one of these traps is in his or her own home. Parenting with Love will teach parents to avoid these traps. Every parent, in fact, can benefit from this book—a book so simple that changes can be made in a day, bringing into reach every parent's ideal of a loving home. Book jacket.

Fundamentals of Archaeology *Benjamin-Cummings Publishing Company*

"This textbook surveys the techniques, methods, and theoretical frameworks of contemporary prehistoric archaeology. In our presentation we view prehistoric archaeology as an integral part of the larger field of anthropology, conditioned by the historical development, concepts and goals of its parent discipline. While we treat the evolving perspectives of archaeological method and theory, together with their implications for understanding the prehistoric past, the text is not a manifesto for any single doctrine or 'school' within the field. Rather, it seeks to synthesize those aspects of both the 'traditional' and the 'new' archaeology that have contributed significantly to the current status of prehistoric archaeology."--p. ix.
