### Language Truth And Logic Aj

Language, Truth and Logic is a 1936 book about meaning by the philosopher Alfred Jules Ayer, in which the author defines, explains, and argues for the verification principle of logical positivism, sometimes referred to as the criterion of significance or criterion of meaning. Ayer explains how the principle of verifiability may be applied to the problems of philosophy. Language, Truth and Logic

brought some of the ideas of the Vienna Circle and the logical empiricists to the attention of the Eng

### Language, Truth, and Logic - Wikipedia

Logical positivism, while massively influential, is widely regarded as a failure, and this is the manifesto of that failed movement. For that reason, unless you are a serious student of philosophy, there's not much point in reading Language, Truth, and Logic, especially given that Ayer's own principle of verification has been more or less completely replaced in the scientific community by ...

Language, Truth and Logic is an audacious book, written when Ayer was 26. It is not the sort of book that would be written by a philosopher at 56 or even 36. But at 26 you can still convince yourself that your position is right even as all of the great philosophers of history are wrong (or at least

mislead and mistaken).

This was the school of 'Logical Positivism', and it was AJ Ayer who is chiefly remembered for popularising it in England. His Language, Truth and Logic, first published in 1936 presents a modified version of logical positivism which he called 'logical empiricism'. This made rather radical charges against philosophy itself, such as asserting that metaphysics was simply nonsense, that questions of value were nonexistent and that philosophers should concern themselves almost solely with language.
