Sales Engineering

Sales engineering is a hybrid of sales and engineering that exists in industrial and commercial markets. Buying decisions in these markets are made

differently than those in many consumer contexts, being based more on technical information and rational analysis and less on style, fashion, or impulse. Therefore, selling in these markets cannot depend on consumer-type sales methods alone, and instead it relies heavily on technical information and problem-solving to convince buyers that they should

Sales engineering - Wikipedia

Sales engineers specialize in facilitating the sales process for technologically and scientifically advanced products. The role of a sales engineer is typically found in B2B settings, where they are tasked with selling complex products to other businesses. Sales engineers often bridge the gap between product development and sales functions.
