The Disciplined Trader

Developing Winning Attitudes *Penguin*
The classic book that introduced the investment industry to the concept of trading psychology. With rare insight based on his firsthand commodity trading experience, author Mark Douglas demonstrates how the mental matters that allow us function effectively in society are often psychological barriers in trading. After examining how we develop losing attitudes, this book prepares you for a thorough “mental housecleaning” of deeply rooted thought processes. And then it shows the reader how to

develop and apply attitudes and behaviors that transcend psychological obstacles and lead to success. The Disciplined Trader helps you join the elite few who have learned how to control their trading behavior (the few traders who consistently take the greatest percentage of profits out of the market) by developing a systematic, step-by-step approach to winning week after week, month after month. The book is divided into three parts: • An overview of the psychological requirements of the trading environment • A definition of the problems and challenges of becoming a successful trader • Basic insights into what behavior may need to be changed, and how to build a framework for accomplishing this goal • How to develop specific trading skills based on a clear, objective perspective on market action “A groundbreaking work published in 1990 examining as to why most traders cannot raise their equity on a consistent basis, bringing the reader to practical conclusions to go about changing any limiting mindset.”—Larry Pesavento, TradingTutor.com

Trading in the Zone

Master the Market with Confidence, Discipline, and a Winning Attitude *Penguin*
Douglas uncovers the underlying reasons for lack of consistency and helps traders overcome the ingrained mental habits that cost them money. He takes on the myths of the market and exposes them one by one teaching traders to look beyond random outcomes, to understand the true realities of risk, and to be comfortable with the "probabilities" of market movement that governs all market speculation.

The Disciplined Trader (Summary)

Developing Winning Attitudes
getAbstract Summary: Get the key points from this book in less than 10 minutes.Author Mark Douglas explains that he lost almost everything he owned because of bad trading decisions. The experience led him to rigorous self-examination, and he discovered that emotions, especially fear, had led him to trade imprudently. He went on to write this straightforward, very penetrating explanation of the role of beliefs and emotions in trading. This is not an abstract academic exercise. Douglas is a trader talking to traders. He is thorough and practical in his analysis and advice. At times, his style may be awkward, stilted and even cumbersome; however, these flaws do not prevent him from communicating important, useful information. Although the book is specifically about emotional and psychological factors as they affect trading, readers are likely to notice that these influences are active in other dimensions of their lives as well. getAbstract finds that this is quite a good little book that has stood the test of time, despites changes in the technology of trading.Book Publisher:Copyright 1990 by Mark DouglasUsed by arrangement with Prentice Hall Press, a division of Penguin Group (USA), Inc.www.penguin.com (1-800-253-6476)

Dieses Buch ist in der Reihe 'Wiley Online Trading for a Living' erschienen.

The Mental Game of Trading

A System for Solving Problems with Greed, Fear, Anger, Confidence and Discipline *JT Press*
A step-by-step system for mastering trading psychology. Think about your most costly and recurring trading mistakes. Chances are that they’re related to common errors, such as chasing price, cutting winners short, forcing mediocre trades, and overtrading. You’ve likely tried to fix these errors by improving your technical skills, and yet they persist. That’s because the real source of these mistakes is not technical—they actually stem from greed, fear, anger, or problems with confidence and discipline. If you are like most traders, you probably overlook or misunderstand mental and emotional obstacles. Or worse, you might think you know how to manage them, but you don’t, and end up losing control at the worst possible time. You’re leaving too much money on the table, which will either prevent you from being profitable or realizing your potential. While many trading psychology books offer sound advice, they don’t show you how to do the necessary work. That’s why you haven’t solved the problems hurting your performance. With straight talk and practical solutions, Jared Tendler brings a new voice to trading psychology. In The Mental Game of Trading, he busts myths about emotions, greed, and discipline, and shows you how to look past the obvious to identify the real reasons you’re struggling. This book is different from anything else on the market. You’ll get a step-by-step system for discovering the cause of your problems and eliminating them once and for all. And through real stories of traders from around the world who have successfully used Tendler’s system, you’ll learn how to tackle your problems, improve your day-to-day performance, and increase your profits. Whether you’re an independent or institutional trader, and regardless of whether you trade equities, forex, or

cryptocurrencies, you can use this system to improve your decision-making and execution. Finally, you have a way to reach your potential as a trader. Now’s the time to make it happen.

Trading Psychology 2.0

From Best Practices to Best Processes *John Wiley & Sons*
Practical trading psychology insight that can be put to work today Trading Psychology 2.0 is a comprehensive guide to applying the science of psychology to the art of trading. Veteran trading psychologist and bestselling author Brett Steenbarger offers critical advice and proven techniques to help interested traders better understand the markets, with practical takeaways that can be implemented immediately. Academic research is presented in an accessible, understandable, engaging way that makes it relevant for practical traders, and examples, illustrations, and case studies bring the ideas and techniques to life. Interactive features keep readers engaged and involved, including a blog offering ever-expanding content, and a Twitter feed for quick tips. Contributions from market bloggers, authors, and experts bring fresh perspectives to the topic, and Steenbarger draws upon his own experience in psychology and statistical modeling as an active trader to offer insight into the practical aspect of trading psychology. Trading psychology is one of the few topics that are equally relevant to day traders and active investors, market makers and portfolio managers, and traders in different markets around the globe. Many firms hire trading coaches, but this book provides a coach in print, accessible 24/7 no matter what the market is doing. Understand the research at the core of trading psychology Examine the ways in which psychology is applied in real-world trading Implement practical tips immediately to see first-hand results Gain the perspective and insight of veteran traders who apply these techniques daily While markets may differ in scale, scope, and activity, humans remain human, with all the inherent behavioral tendencies. Studying the market from the human perspective gives traders insight into how human behavior drives market behavior. Trading Psychology 2.0 gives traders an edge, with expert guidance and practical advice.

This performance-oriented guidebook features a potent synthesis of psychology and strategy that will exponentially increase your ability to acquire wealth as a trader. Even veteran traders with bulletproof trading strategies are doomed to fail if they don't know themselves. The Forex Mindset prepares you to be a successful trader by helping you identify your unique psychological strengths and weaknesses and how you naturally behave in times of financial crisis. With a newfound understanding of yourself, you can use this book to map out your own path to wealth by: Delving into human nature and market behavior Learning how to improve your emotional intelligence Doing what top traders do to control their emotions in trades and in times of crisis Implementing authoritative strategies for effective thinking in a state of fear If you want to make a living from trading forex, apply the lessons in The Forex Mindset and you're already 90 percent there!

The Psychology of Trading

Tools and Techniques for Minding the Markets *John Wiley & Sons*
"The one, only, and by far the best book synthesizing psychology and investing. In addition to providing modern, scientific knowledge about psychology, this book provides a mirror into the mind and wide breadth of knowledge of one of the leading practitioners of brief and effectual cures. Will help to cure your trading and your life." -Victor Niederhoffer, Chief Speculator, Manchester Investments Author, The Education of a Speculator and Practical Speculation "How refreshing! A book that rises above the old NLP model of the 80's and provides insights on how our relationship with the market is indeed a very personal one. Not only has Steenbarger provided some fantastic tools for the trader to transform his mindset, but he has contributed unique trading ideas as well. Brilliant!" -Linda Raschke, President, LBRGroup, Inc. "'Investigate, before you invest' was for many years the slogan of the New York Stock Exchange. I always thought a better one would be, 'Investigate YOURSELF, before you invest.' The Psychology of Trading should help you increase your annual investment rate of return. Mandatory reading for anyone intending to earn a livelihood through trading. " -Yale Hirsch, The Hirsch Organization Inc., Editor, The Stock Trader's Almanac "This highly readable, highly educational, and highly entertaining book will teach you as much about yourself as about trading. It's Oliver Sacks meets Mr. Market-extraordinary tales of ordinary professionals and individuals with investment disorders, and how they successfully overcame them. It is a must-read both for private investors who have been shell-shocked in the bear market and want to learn how to start again, as well as for pros who seek an extra edge from extra inner knowledge. Steenbarger's personal voyage into the mind of the market is destined to become a classic." -Jon Markman, Managing Editor, CNBC on MSN Money Author, Online Investing and Swing Trading "Dr. Steenbarger's fascinating, highly readable blend of practical insights from his dual careers as a brilliant psychologist and trader will benefit every investor; knowing oneself is as important as knowing the market." -Laurel Kenner, CNBC.com Columnist, Author, Practical Speculation

Trader Vic II

Mindset Secrets for Winning

How to Bring Personal Power to Everything You Do

The Mental Edge in Trading : Adapt Your Personality Traits and Control Your Emotions to Make Smarter Investments *McGraw Hill Professional*
LEVERAGE YOUR MOST POWERFUL TRADING ASSET: YOUR PERSONALITY The Mental Edge in Trading explains the critical link between successful trading and personality traits--and it gives you the tools to use this information to make smarter trades. A highly trained psychiatrist, Dr. Jason Williams, son of legendary trader Larry Williams, explains how to assess and measure your innate personality traits and align them with your trading style for more profitable trading on a more consistent basis. Dr. Williams tested proven winning traders who were managing billions of dollars to see what the great winning traders had in common, what personality traits made them so successful. The results are in this groundbreaking book that will help you become like these winning traders. His conclusions are based on hard science, the latest brain research, and the careful study of successful traders, not on psychobabble meanderings. Dr. Williams provides: A comprehensive overview of how personality/emotions affect every trading decision The information you need to determine the emotions that dominate your decision making Proven methods for adapting your trading plan--and your behavior--to make more money than ever With The Mental Edge in Trading, you have everything you need to apply your cluster of personality traits to become a better, wiser, and more consistently successful market trader. Solid trading strategies and accurate market indicators are crucial. But when push comes to shove, the glue that binds them is your emotional state at any given time. When things go south, the best trading system will collapse like a house of cards--if you allow it to. The Mental Edge in Trading provides the tools you need to ensure this never happens to you by helping you understand and use your emotions when it counts most. It's the key to long-term trading success. Until now, no other book has provided a practical, detailed method for achieving the mental edge in trading. What you'll find inside is based on intensive research into the minds of today's most profitable traders. The

Mental Edge in Trading explains the immutable relationship of human thought, emotion, and behavior and reveals how to: Determine if you should be a systems or discretionary trader Conquer you underlying fear of risk by understanding where it comes from Calm innate anxieties before you start your trading day Use optimism as a "tool" for profitability Remain vigilant as to why you are placing each and every trade This complete trading-improvement tool gives you the information you need to determine and improve your personality traits, discover your dominant emotions, and use this information to adapt your behavior for more successful trading.

Trading from Your Gut

How to Use Right Brain Instinct & Left Brain Smarts to Become a Master Trader *FT Press*
EARN SERIOUS TRADING PROFITS BY USING YOUR WHOLE BRAIN! Legendary traders like Jesse Livermore, George Soros, Richard Dennis, and Steven Cohen use their full range of powers that encompass both instinct and analysis. That’s how they made their fortunes–and that’s how you can, too. Reveals how many successful traders tend to follow the samegeneral principles, even if their approach to trading maydiffer Explores how to account for the risk of being wrong and themarket moving against you Discusses how to develop an approach that combines tradeselection with sound risk management, avoids emotional attachmentto positions, exploits volatility cycles, and focuses on marketaction Regardless of how you approach markets, the insights found herewill help improve the way you trade by putting you in a betterposition to distinguish the differences between successful andunsuccessful traders.

Wake Up and Change Your Life *Orion*
Duncan Bannatyne reveals how to set up a business and make it a great success. Having started out with ice cream van, he knows exactly how it can be done - and how to avoid the pitfalls along the way. In a series of clear and easy-to-follow chapters, Duncan removes the barriers to getting started as an entrepreneur, and helps to plan a way forward through those potentially difficult early days. He shows that there is no substitute for hard work, and insists that you must be completely honest with yourself about your own strengths and weaknesses if you are to succeed. He outlines the key attributes you will need and how you can develop them to achieve your dreams. Backed with fascinating examples from his own career and case studies from a wide range of other entrepreneurs, this book provides the perfect wake-up call for you to change your life for the better.

Millionaire Traders

How Everyday People Are Beating Wall Street at Its Own Game *John Wiley & Sons*
Trading is a battle between you and the market. And while you might not be a financial professional, that doesn't mean you can't win this battle. Through interviews with twelve ordinary

individuals who have worked hard to transform themselves into extraordinary traders, Millionaire Traders reveals how you can beat Wall Street at its own game. Filled with in-depth insights and practical advice, this book introduces you to a dozen successful traders-some who focus on equities, others who deal in futures or foreign exchange-and examines the paths they've taken to capture considerable profits. With this book as your guide, you'll quickly become familiar with a variety of strategies that can be used to make money in today's financial markets. Those that will help you achieve this goal include: Tyrone Ball: trades Nasdaq stocks almost exclusively, and his ability to change with the times has enabled him to prosper during some of the most treacherous market environments in recent history. AShkan Bolour: one of the earliest entrants into the retail forex market, he trades in the direction of the major trend, rather than trying to find reversals. Frank Law: a technician at heart, identifies a trading zone, commits to it, and scales down as long as the zone holds. Paul Willette: has mastered a method that allows him to harvest some profits right away, while ensuring that he can still benefit from an occasional extension run in his favor. Order your copy today and beat the Street.

The Trading Book: A Complete Solution to Mastering Technical Systems and Trading Psychology *McGraw Hill Professional*
THE SMARTEST TRADES. THE HOTTEST MARKETS. THE ONLY BOOK YOU NEED. You don’t have to be a professional trader to win big in the stock market. That’s what Anne-Marie Baiynd learned when she changed her career from neuroscience researcher to full-time momentum trader. Now, with her popular website and this brilliant new book, she teaches other traders how to master the market using her proven combination of analytics and psychology. The Trading Book shows you how to: Master the power of technical trading Increase profits using probabilities and pattern recognition Focus on precision trading for consistent results Discover the benefits of waves and fibs Embrace the habits of highly effective traders This one-of-a-kind guide goes beyond the numbers and statistics to show you the complex psychology behind the trades—from the greatest gains to the hardest losses. You’ll discover how other traders deal with making counterintuitive decisions; how to use technical indicators to identify the momentum and direction of the markets; and how to achieve your long-term financial goals through discipline, dedication, and endurance. Filled with insightful case studies, interviews, exercises, and guidelines for keeping a personal trading journal, this is more than a crash course for beginners or an industry guide for experts. This is the book on trading. Praise for The Trading Book: “Anne-Marie is an amazing trader who loves to share ideas. She knows it makes her smarter and so sharing is not really giving away anything. Anne Marie can explain complex trading ideas in a digestible manner, and any level of trader or investor will benefit from this book.” —Howard Lindzon, cofounder and CEO of StockTwits and author of The StockTwits Edge “The Trading Book does an outstanding job of offering step-by step explanations of trading strategies and methods. Anyone looking for a clear path to profits in the markets will find the pre-trade checklist especially helpful for staying disciplined during the trading day. The lessons on reading stock charts are some of the best I’ve seen and worth reading multiple times.” —Tim Bourquin, Traderinterviews.com “This excellent book balances trading wisdom, psychology, common sense, and valuable strategies that you can put to work immediately. I think that the ‘woman’s perspective’ really adds something that most trading books are missing. Read this book; trust me!” —Brian Shannon, author of Technical Analysis Using Multiple Timeframes and President of Alphatrends.net

ELLIOTT WAVE PRINCIPLE - KEY T *New Classics Library*
A Great Classic for Three Decades: Now In Its 10th Edition, Consider What This "Definitive Text" Offers You Take a moment to look over your books about investing. Have any of them given you a successful method for making profits and reducing risks? Is there even one such book that has proven reliable over the years? Alas, most investors would say "no." That's because so few investment books are "classic" in the true sense: For years investors keep buying the book, and they keep using the method to make the most of their opportunities. Three decades years ago -- 1978 -- is one of the last times an investment book was written that is worthy of being called "classic." One of the two men who authored that book was a 26 year-old market analyst working at Merrill Lynch's headquarters on Wall Street. The young man had earned a lot of attention in a short time by using a forecasting tool that almost no one had heard of. Yet his market forecasts were startlingly accurate: Robert Prechter was the young man's name, and he used a method called the "Elliott Wave Principle." A. J. Frost was one of the few other financial professionals who used the Wave Principle. In a distinguished 20-year career, Frost had likewise made many astonishingly accurate forecasts. His colleagues regarded him as the consummate technical analyst. Frost and Prechter met in May of 1977 and became fast friends. Eighteen months later, they published Elliott Wave Principle - Key to Market Behavior. The Dow Industrials stood at 790. But the brash forecast in this new book called for a Great Bull Market. It became a runaway best seller. Three decades is enough time for investors to deem a book about an investment method as "classic," and surely the jury is in on this one: Elliott Wave Principle is now published in seven languages, and continues to sell thousands of copies every year. In Europe, Asia and the Americas, literally millions of investors worldwide use or recognize the Elliott Wave method for profitable investing. Elliott Wave International is proud to present the 10th edition of this investment classic. It's designed to help the Elliott Wave novice and the veteran practitioner. It's time to consider what this definitive text offers you. Here's a sample of what you'll learn: The basic tenets of Wave Theory: You'll read simple explanations of the terms, and how to identify all 13 waves that can occur in the movement of stock market averages. The rules and guidelines of Wave analysis: You'll learn the basics of counting waves, how to recognize the "right look" of a wave, plus lots of simple steps for applying the rules. The scientific background of the Wave Principle: How you can see it in nature and the universe, in art and mathematics, even in the shape of the human body. Long-term waves: You'll see how the Wave Principle gives history greater meaning, from the fall of the Roman Empire through the Middle Ages into the financial upheavals of the 20th Century. Understanding these monumental trends will help you position yourself for long-term profit and protection. Stocks, commodities and gold: The Wave Principle is your guide to the movements of any financial market. Few pleasures can match the exhilaration you'll feel when a Wave Principle forecast has you in the market when it moves up, or takes you out just before it moves down. Obviously, Elliott Wave Principle - Key to Market Behavior is the perfect companion to Bob Prechter's Elliott Wave Theorist publication. The book is essential reading for you to receive the most from what the Theorist says every month -- in fact, all of EWI's publications continually reference this book.

Strategies for Profiting on Every Trade

Simple Lessons for Mastering the Market *John Wiley & Sons*

An accessible guide for traders looking to boosting profitsin the financial markets from a trading superstar Dubbed “The Messiah of Day Trading” by Dow Jones ,Oliver Velez is a world-renowned trader, advisor, entrepreneur andone of the most sought after speakers and teachers on trading thefinancial markets for a living. Mastering Trading Psychology

Improve Your Trading with Firsthand Reports by Real-Life Traders
Andrew Aziz describes technology, strategy, and psychology as the three essential pillars of successful trading, and he knows that the psychological aspects of trading are the most likely to be underestimated or even ignored. He wrote Mastering Trading Psychology to help traders enhance their understanding of this crucial pillar of trading and to strengthen their "mental skills" in order to maximize their performance.This practical and highly entertaining book takes its readers inside the minds of ordinary retail traders who contributed more than 175 accounts of their successes, their failures, their joys, their struggles, and, most of all, what they have learned as traders. Some are experienced, but many are relative beginners. They represent an intriguing diversity in terms of where they live, their ages, their levels of education, their everyday jobs, and how they tell their stories. All are members of Andrew's trading community, and their enthusiastic response to his invitation to share their experiences and insights was overwhelming. Complemented by Andrew's explanatory text, the stories are told in the contributors' own words, minimally edited for length, clarity, and privacy.

The Complete TurtleTrader

How 23 Novice Investors Became Overnight Millionaires *Harper Collins*
This is the true story behind Wall Street legend Richard Dennis, his disciples, the Turtles, and the trading techniques that made them millionaires. What happens when ordinary people are taught a system to make extraordinary money? Richard Dennis made a fortune on Wall Street by investing according to a few simple rules. Convinced that great trading was a skill that could be taught to anyone, he made a bet with his partner and ran a classified ad in the Wall Street Journal looking for novices to train. His recruits, later known as the Turtles, had anything but traditional Wall Street backgrounds; they included a professional blackjack player, a pianist, and a fantasy game designer. For two weeks, Dennis taught them his investment rules and philosophy, and set them loose to start trading, each with a million dollars of his money. By the time the experiment ended, Dennis had made a hundred million dollars from his Turtles and created one killer Wall Street legend. In The Complete Turtle Trader, Michael W. Covel, bestselling author of Trend Following and managing editor of TurtleTrader.com, the leading website on the Turtles, tells their riveting story with the first ever on the record interviews with individual Turtles. He describes how Dennis interviewed and selected his students, details their education and experiences while working for him, and breaks down the Turtle system and rules in full. He reveals how they made astounding fortunes, and follows their lives from the original experiment to the present day. Some have grown even wealthier than ever, and include some of today's top hedge fund managers. Equally important are those who passed along their approach to a second generation of Turtles, proving that the Turtles' system truly is reproducible, and that anyone with the discipline and the desire to succeed can do as well as—or even better than—Wall Street's top hedge fund wizards. In an era full of slapdash investing advice and promises of hot stock tips for "the next big thing," as popularized by pundits like Jim Cramer of Mad Money, the easy-to-follow objective rules of the TurtleTrader stand out as a sound guide for truly making the most out of your money. These rules worked—and still work today—for the Turtles, and any other investor with the desire and commitment to learn from one of the greatest investing stories of all time.

Tools and Tactics for the Master DayTrader: Battle-Tested Techniques for Day, Swing, and Position Traders *McGraw Hill Professional*

Mindful Trading

Mastering Your Emotions and the Inner Game
This book explores how fear or impulsivity blocks the potential of the trader you could be. But more than just explaining HOW your fears and impulsivity negatively impact your trading, this book explains what you can DO about it.Through the use of real life vignettes, Rande tells the stories of traders like you who have wrestled with their psychological demons and conquered them. From the paralyzing hesitation of the fear of pulling the trigger to the demoralizing disaster of impulse trading to make up for prior loses, you will see how they overcame their self-limiting beliefs and achieved a disciplined, patient, impartial, and courageous mindset the Trader's State of Mind.Rande explores how these traders used Mindfulness as part of a process to develop an edge that led them to peak performance trading. In this book you will learn how to disrupt old self limiting beliefs that block you from your potential and awaken the potential of the Inner Trader living within you.

Super Trader: Make Consistent Profits in Good and Bad Markets *McGraw Hill Professional*
How do you transform yourself from mild-mannered investor to Super Trader? Think clearly. Plan accordingly. Commit completely. In other words, become a trader. And no one is better

suited to help you make the transformation than legendary trading educator and author Van K. Tharp. Combining the sharp insight and technical brilliance that has drawn legions of investors to his books and seminars, Tharp provides a holistic approach for becoming a successful full-time trader. His system—a meld of investing psychology and sound trading practice—is the secret to achieving optimum conditions that produce results in both bull and bear markets. Using the lessons of Super Trader, you will approach trading as you would a small business—realistically, systematically, and enthusiastically. Drawing on his decades of experience, Tharp has created a simple plan designed to help anyone master the market. You can put this plan to use immediately in order to: Master the psychology of trading Craft a “business plan”—a working document to guide your trading Develop a trading system tailored for your personal needs and skills Create position-sizing strategies to meet your objectives Monitor yourself constantly to minimize mistakes Throughout the book, Tharp asks the pertinent questions you must ask yourself about becoming a trader, being a trader, and succeeding as a trader. The rewards that come with being a Super Trader—both financial and personal—make you feel as if you can leap small buildings in a single bound. Whatever your skill level, Tharp provides the formula for succeeding in a field where most people fail.

Complete Trading for a Living *John Wiley & Sons Incorporated*

Stock Trading and Investing Using Volume Price Analysis

Over 200 Worked Examples *Createspace Independent Publishing Platform*
In this book of over 200 worked examples for stock traders and investors, you will discover an approach that was used by the iconic traders of the past to build their vast fortunes. Traders such as Jesse Livermore, Richard Wyckoff and Richard Ney all succeeded because they understood the power of the tape which delivered just two key pieces of information, namely volume and price, and from which they were able to anticipate where the market was going next. This approach was also codified by Richard Wyckoff into three principle laws, and forms the basis of volume price analysis. It is a powerful methodology that can be applied to all markets, instruments and timeframes regardless of whether you are an investor, trader or speculator. The examples presented in this book are drawn primarily from US stock markets, but also includes examples taken from the futures markets, such as indices, commodities, currency futures and bonds. Each chart example is fully annotated to illustrate and highlight key points in the associated text, and together provide a detailed and comprehensive study of the volume price relationship, and giving clear signals as to where the stock is going next. And regardless of whether you are selecting stocks for growth, dividend yield, option strategies, or for speculative day trading, volume price analysis will highlight which ones to buy or sell, and when.

Mastering the Trade, Second Edition: Proven Techniques for Profiting from Intraday and Swing Trading Setups *McGraw Hill Professional*
The essential guide to launching a successful career in trading—updated for today’s turbulent markets “Mastering the Trade is an excellent source for a basic understanding of market action, be it day and/or longer-term trend trading. A programmer will have a field day with the many ideas that are in this book. It is highly recommended.” —John Hill, president of Futures Truth magazine “John Carter’s new book focuses quickly on the critical area of trader psychology, a realm that will often separate the trader from his wallet if it is not mastered first. The in-depth trading strategies clearly show how to respond to market moves based on real-world examples.” —Price Headley, founder of BigTrends.com and author of Big Trends in Trading “Well written and packed with the kind of insight about the nature of trading and the markets that can surely benefit every level of trader.” —Mark Douglas, author of Trading in the Zone and The Disciplined Trader “This is a must read for all new traders, specifically for the psychological aspect of trading. I am recommending it to all of my clients.” —Carolyn Boroden, FibonacciQueen.com About the Book: When it was first published in 2005, Mastering the Trade became an instant classic in the world of day trading. Now, veteran day trader and educator John F. Carter has updated his time-proven swing trading technique to help you succeed in an environment vastly transformed by volatility and technology. Universally acclaimed for its sophisticated yet easy-to-execute methods, this practical, results-driven guide provides everything you need to make a lucrative career as a day trader—from preparing yourself psychologically for the unique demands of day trading to timing the market, managing risk, and planning future trades. Mastering the Trade sets aside timeworn basics and rehashed ideas to examine in

detail the underlying factors that cause prices to move. Providing the tools you need to make the right decisions at the right times, it helps you enter market shifts early and either pull out before losses accrue or hang on for a long and refreshingly predictable ride. Mastering the Trade covers: The five psychological truths that will transform you from a mistake-prone novice into a savvy trading professional Exact entry, exit, and stop-loss levels for the intraday trading of stocks, options, ETFs, e-mini futures, 30-year bonds, currencies, and more Seven key internals, from $TICKS to five-minute volume—critical for gauging pending market direction from the opening bell Premarket checklists for analyzing recent market behavior and calculating on each trading day what you plan to do, how you plan to do it, and why Airtight risk control techniques for protecting trading capital—the most important component of a professional trading career After spending many years on various trading desks, Carter has developed an intuitive understanding of how the markets work. In Mastering the Trade, he gives you unlimited access to everything the markets have taught him—so you can make an exceptional living on the frontlines of professional trading.

Trading Price Action Trading Ranges

Technical Analysis of Price Charts Bar by Bar for the Serious Trader *John Wiley & Sons*
Praise for Trading Price Action Trading Ranges "Al Brooks has written a book every day trader should read. Onall levels, he has kept trading simple, straightforward, andapproachable. By teaching traders that there are no rules, justguidelines, he has allowed basic common sense to once again rulehow real traders should approach the market. This is a must-readfor any trader that wants to learn his own path to success." —Noble DraKoln, founder, SpeculatorAcademy.com, and author ofTrade Like a Pro and Winning the Trading Game "A great trader once told me that success was a function offocused energy. This mantra is proven by Al Brooks, who left athriving ophthalmology practice to become a day trader. Al'sintense focus on daily price action has made him a successfultrader. A born educator, Al also is generous with his time,providing detailed explanations on how he views daily price actionand how other traders can implement his ideas with similar focusand dedication. Al's book is no quick read, but an in-depth roadmap on how he trades today's volatile markets, complete withdetailed strategies, real-life examples, and hard-knocksadvice." —Ginger Szala, Publisher and Editorial Director, Futuresmagazine Over the course of his career, author Al Brooks, a technicalanalysis contributor to Futures magazine and an independenttrader for twenty-five years, has found a way to capture consistentprofits regardless of market direction or economic climate. Andnow, with his new three-book series—which focuses on how touse price action to trade the markets—Brooks takes you stepby step through the entire process. In order to put his methodology in perspective, Brooks examinedan essential array of price action basics and trends in the firstbook of this series, Trading Price Action TRENDS. Now, inthis second book, Trading Price Action TRADING RANGES, heprovides important insights on trading ranges, breakouts, ordermanagement, and the mathematics of trading. Page by page, Brooks skillfully addresses how to spot and profitfrom trading ranges—which most markets are in, most of thetime—using the technical analysis of price action. Along theway, he touches on some of the most important aspects of thisapproach, including trading breakouts, understanding support andresistance, and making the most informed entry and exit decisionspossible. Throughout the book, Brooks focuses primarily on 5 minutecandle charts—all of which are created withTradeStation—to illustrate basic principles, but alsodiscusses daily and weekly charts. And since he trades more thanjust E-mini S&P 500 futures, Brooks also details how priceaction can be used as the basis for trading stocks, forex, TreasuryNote futures, and options.

The Little Book of Trading

Trend Following Strategy for Big Winnings *John Wiley & Sons*
How to get past the crisis and make the market work for you again The last decade has left people terrified of even the safest investment opportunities. This fear is not helping would-be investors who could be making money if they had a solid plan. The Little Book of Trading teaches the average person rules and philosophies that winners use to beat the market, regardless of the financial climate. The market has always fluctuated, but savvy traders know how to make money in good times and bad. Drawing on author Michael Covel's own trading experience, as well as insights from legendary traders, the book offers sound, practical advice in an easy to understand, readily digestible way. The Little Book of Trading: Identifies tools, concepts, psychologies, and philosophies that keep people protected and making money when the next market bubble or surprise crisis occurs Features top traders in each chapter that have beaten the market for decades, providing readers with their moneymaking knowledge Shows how traders who beat mutual fund performance make money at different times, not just from stocks alone Most importantly, The Little Book of Trading explains why mutual funds should not be the investment vehicle of choice for people looking to secure retirement, a radical realization highlighting the changed face of investing today.

Bulletproof Trader

Evidence-based strategies for overcoming setbacks and sustaining high performance in the markets *Harriman House Limited*
Trading can be intensely rewarding. But it is also one of the most mentally and emotionally challenging activities anyone can pursue. As in other high-performance domains, those who are serious about mastering their craft and staying in the game spend serious time working on their game, including training their mind and body. Steve Ward has spent the last 15 years working as a performance coach with financial traders and investors at some of the biggest and most successful investment banks, hedge funds, asset managers, commodities trading houses and proprietary trading groups across the globe, helping them to perform at their best, to navigate the highs and lows of trading and investing in the markets, and to sustain high performance for the long run. As one hedge fund client put it to him, “It’s about becoming bulletproof”. Becoming a bulletproof trader is forged over time through experience, and by applying the latest insights from biological and psychological sciences, the best that practical philosophy can teach us, and a healthy dose of pragmatism – doing what actually works in the real world of trading the markets. This book brings together all of Steve’s latest insights into how to deal with stresses and setbacks and sustain high performance in a comprehensive, accessible and unmissable book, so that you too can become a bulletproof trader. Don’t trade without it.

The Economist's View of the World *Cambridge University Press*
This book explains and assesses the ways in which micro, welfare

and benefit-cost economists view the world of public policy. In general terms, microeconomic concepts and models can be seen to appear regularly in the work of political scientists, sociologists and psychologists. As a consequence, these and related concepts and models have now had sufficient time to influence strongly and to extend the range of policy options available to government departments. The central focus of this book is the 'cross-over' from economic modelling to policy implementation, which remains obscure and uncertain. The author outlines the importance of a wider knowledge of microeconomics for improving the effects and orientation of public policy. He also provides a critique of some basic economic assumptions, notably the 'consumer sovereignty principle'. Within this context the reader is in a better position to understand the 'marvellous insights and troubling blindnesses' of economists where often what is controversial politically is not so controversial among economists.

The Spirit of Democratic Capitalism

Thirty Years Later

30 years after the release of his ground-breaking work, The Spirit of Democratic Capitalism, Michael Novak returns to answer the question of what gives rise to democratic capitalism - that intricate blend of commerce and rule of law that encourages peace and global trade. This essay is vital to understanding the intangible environment that best inspires human flourishing, as it discovers capitalism's essence, and uncovers what truly fosters creativity.Novak articulates how democratic capitalism works toward creating, not just consuming, wealth, along with encouraging ambition, discipline, and mutual benefit. He explains how critics fail to consider the interaction between the system and the role that economic, political, and moral liberties play in comprehensive human flourishing.This new and exciting work enlivens the connection between the Bible and democratic capitalism by showcasing how seamlessly the dynamic polity fits with the imperatives of human capacity and drive.
