Half Real Video Games Between

The Half-Real of the title refers to the fact that video games are two rather different things at the same time: video games are real in that they are made of real rules that players actually interact with; that winning or losing a game is a real event. However, when winning a game by slaying a dragon, the dragon is not a real dragon, but a fictional one.

Half-Real: Video Games between Real Rules and Fictional Worlds

Video games as both a departure from and a development of traditional games; an analysis of the interaction between rules and fiction in video games. A video game is half-real: we play by real rules while imagining a fictional world. We win or lose the game in the real world, but

we slay a dragon (for example) only in the world of the game.
