Those who Save Us *Houghton Mifflin Harcourt*

A professor of German history begins a long journey back into a past she has pushed aside, returning to Germany to reopen the wounds of her own life--as well as that of her mother--as a child living in Nazi Germany. 20,000 first printing.

Those Who Save Us *HarperCollins*

For fifty years, Anna Schlemmer has refused to talk about her life in Germany during World War II. Her daughter, Trudy, was only three when she and her mother were liberated by an American soldier and went to live with him in Minnesota. Trudy's sole evidence of the past is an old

photograph: a family portrait showing Anna, Trudy, and a Nazi officer, the Obersturmführer of Buchenwald. Driven by the guilt of her heritage, Trudy, now a professor of German history, begins investigating the past and finally unearths the dramatic and heartbreaking truth of her mother's life. Combining a passionate, doomed love story, a vivid evocation of life during the war, and a poignant mother/daughter drama, *Those Who Save Us* is a profound exploration of what we endure to survive and the legacy of shame.

The Lost Family

A Novel *HarperCollins*

The *Lost Family* is an extraordinary read, the kind of book that makes you sob and smile, the kind that gives you hope.... It is compassionate, masterful and disturbingly contemporary."—Tatiana de Rosnay, bestselling author of *Sarah's Key* The New York Times bestselling author of *Those Who Save Us* creates a vivid portrait of marriage, family, and the haunting grief of World War II in this emotionally charged, beautifully rendered story that spans a generation, from the 1960s to the 1980s. In 1965 Manhattan, patrons flock to Masha's to savor its brisket bourguignon and impeccable service and to admire its dashing owner and head chef Peter Rashkin. With his movie-star good looks and tragic past, Peter, a survivor of Auschwitz, is the most eligible bachelor in town. But Peter does not care for the parade of eligible women who come to the restaurant hoping to catch his eye. He has resigned himself to a solitary life. Running Masha's consumes him, as does his terrible guilt over surviving the horrors of the Nazi death camp while his wife, Masha—the restaurant's namesake—and two young daughters perished. Then exquisitely beautiful June Bouquet, an up-and-coming young model, appears at the restaurant, piercing Peter's guard. Though she is twenty years his junior, the two begin a passionate, whirlwind courtship. When June unexpectedly becomes pregnant, Peter proposes, believing that beginning a new family with the woman he loves will allow him to let go of the horror of the past. But over the next twenty years, the indelible sadness of those memories will overshadow Peter, June, and their daughter Elsbeth, transforming them in shocking, heartbreaking, and unexpected ways. Jenna Blum artfully brings to the page a husband devastated by a grief he cannot name, a frustrated wife struggling to compete with a ghost she cannot banish, and a daughter sensitive to the pain of both her own family and another lost before she was born. Spanning three cinematic decades, *The Lost Family* is a charming, funny, and elegantly bittersweet study of the repercussions of loss and love.

While it’s clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it’s a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. Saving Us

A Climate Scientist's Case for Hope and Healing in a Divided World *Simon and Schuster*

NATIONAL BESTSELLER “An optimistic view on why collective action is still possible—and how it can be realized.” —The New York Times “As far as heroic characters go, I’m not sure you could do better than Katharine Hayhoe.” —Scientific American “It’s not an exaggeration to say that Saving Us is one of the more important books about climate change to have been written.” —The Guardian United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future. Called “one of the nation's most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In Saving Us, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. Saving Us leaves us with the tools to open a

dialogue with your loved ones about how we all can play a role in pushing forward for change.

This Will Not Pass

Trump, Biden, and the Battle for America's Future *Simon and Schuster*

The shocking, definitive account of the 2020 election and the first year of the Biden presidency by two New York Times reporters, exposing the deep fissures within both parties as the country approaches a political breaking point. This is the authoritative account of an eighteen-month crisis in American democracy that will be seared into the country's political memory for decades to come. With stunning, in-the-room detail, New York Times reporters Jonathan Martin and Alexander Burns show how both our political parties confronted a series of national traumas, including the coronavirus pandemic, the January 6 attack on the Capitol, and the political brinksmanship of President Biden's first year in the White House. From Donald Trump's assault on the 2020 election and his ongoing campaign of vengeance against his fellow Republicans, to the behind-the-scenes story of Biden's selection of Kamala Harris as his running mate and his bitter struggles to unite the Democratic Party, this book exposes the degree to which the two-party system has been strained to the point of disintegration. More than at any time in recent history, the long-established traditions and institutions of American politics are under siege as a set of aging political leaders struggle to hold together a changing country. Martin and Burns break news on most every page, drawing on hundreds of interviews and never-before-seen documents and recordings from the highest levels of government. The book asks the vitally important (and disturbing) question: can American democracy, as we know it, ever work again?

Beloved Beasts: Fighting for Life in an Age of Extinction *W. W. Norton & Company*

Winner of the Sierra Club's 2021 Rachel Carson Award One of Chicago Tribune's Ten Best Books of 2021 Named a Top Ten Best Science Book of 2021 by Booklist and Smithsonian Magazine "At once thoughtful and thought-provoking," Beloved Beasts tells the story of the modern conservation movement through the lives and ideas of the people who built it, making "a crucial addition to the literature of our troubled time" (Elizabeth Kolbert, author of *The Sixth Extinction*). In the late nineteenth century, humans came at long last to a devastating realization: their rapidly industrializing and globalizing societies were driving scores of animal species to extinction. In Beloved Beasts, acclaimed science journalist Michelle Nijhuis traces the history of the movement to protect and conserve other forms of life. From early battles to save charismatic species such as the American bison and bald eagle to today's global effort to defend life on a larger scale, Nijhuis's "spirited and engaging" account documents "the changes of heart that changed history" (Dan Cryer, *Boston Globe*). With "urgency, passion, and wit" (Michael Berry, *Christian Science Monitor*), she describes the vital role of scientists and activists such as Aldo Leopold and Rachel Carson, reveals the origins of vital organizations like the Audubon Society and the World Wildlife Fund, explores current efforts to protect species such as the whooping crane and the black rhinoceros, and confronts the darker side of modern conservation, long shadowed by racism and colonialism. As the destruction of other species continues and the effects of climate change wreak havoc on our world, Beloved Beasts charts the ways conservation is becoming a movement for the protection of all species including our own.

Authentic Patriotism

How to Restore America's Ideals---Without Losing Our Tempers or Our Minds *St. Martin's Griffin*

A provocative, inspiring account of our neglected American ideals and the people who are living them today--and restoring our nation's dream Patriotism has become a loaded word: one that is wielded against people with whom we might disagree, or whose cultural origins don't match our own. But our founding fathers--Washington, Jefferson, Adams, and others--saw patriotism as a dynamic force: an act of service, in an evolving nation that defined its purpose by offering all people a better way of life. In *Authentic Patriotism*, author and award-winning journalist Stephen P. Kiernan explores the original ideals that have been lost in our current climate, where war and economic turmoil have eroded our sense of civic obligation. Kiernan describes “a nation adrift,” out of touch with its origins--and then introduces a range of inspiring people who have revived our national purpose by taking action: - The out-of-work college graduate who led an economic and environmental renewal of her blighted home community. - The retired executive who pioneered a

revolutionary concept in health care for people without insurance. - The minister who created a legendary choir, with the goal of uniting children of different races, genders, and classes in one voice. - The family who donated their daughter's heart, so that another might live. These and other “New Americans” are profiled in a book that offers hope, ideas, examples, and practical resources for readers who want to renew the American spirit.
